Re: DA 10-1117
CC Docket No. 95-155

Dear Mr. Wade:

This letter responds to your March 10, 2010, request to open a new toll free number code -- 855. Based upon your most recent exhaust projection report, the supply of currently available toll free numbers is expected to last only until November 21, 2010. It is in the public interest for the industry and consumers to have continued access to numbering resources, including toll free numbers. Therefore, pursuant to the Federal Communications Commission's exclusive jurisdiction over numbering resources in the United States under section 251(e)(1) of the Communications Act of 1934, as amended, the Wireline Competition Bureau authorizes Database Service Management, Inc. (DSMI) to open the 855 toll free code on October 1, 2010, so that Responsible Organizations may reserve 855 toll free numbers.

We continue to seek ways to conserve numbering resources in order to preserve this valuable public resource and to more effectively meet the needs of the industry and consumers. To this end, the Bureau may later dictate number conservation measures for DSMI to follow in assigning numbers from this new toll free code.

Compliance with this direction is to begin at 12:00 p.m., Eastern Time, Friday, October 1, 2010. Thank you for your cooperation. If you need anything further, please do not hesitate to contact us.

Sincerely,

Sharon E. Gillett
Chief, Wireline Competition Bureau
