Attachment 2

NOTES FOR PREPARING A DATA FILE

Save file using the file type "Formatted text (space delimited)"
Then rename the file using the naming convention in the manual.

Note: anything with a space as the left most character in column A is treated as a comment record.

RECORD FORMAT

Each Data record should contain the following fields:

Field	Field Contents	Justification within field	Field size (column width)	Record Positions
1. Filing Carrier Name	Characters	Left	15	1-15
note that character 15 in the name field should be a blank or an "A" for annual data.				
2. Year of data	Numbers	Right	2	16-17
3. U.S. Point served	Numbers	Right	5	18-22
4. International Point or region	Numbers	Right	5	23-27
5. Service Code	Numbers	Right	3	28-30
