NOTICE OF PROPOSED RULE MAKING

Adopted: May 17, 2000

Released: May 26, 2000

Comment Date: July 17, 2000

Reply Comment Date: August 1, 2000

By the Chief, Allocations Branch:

1. Before the Commission for consideration is a petition for rule making filed on behalf of All American Broadcasting, Inc. ("petitioner"), licensee of FM Station KNTO, Channel 240A, Livingston, California, requesting the reallocation of Channel 240A from Livingston to Dos Palos, California, and modification of its authorization accordingly. Petitioner states that it will apply for Channel 240A if it is reallocated to Dos Palos.

2. Petitioner filed its request pursuant to Section 1.420(i) of the Commission's Rules which permits the modification of a station's authorization to specify a new community of license without affording other interested parties an opportunity to file competing expressions of interest. See Modification of FM and TV Authorizations to Specify a New Community of License ("Change of Community R&O"), 4 FCC Rcd 4870 (1989), recon. granted in part ("Change of Community MO&O"), 5 FCC Rcd 7094 (1990). Petitioner advises that the requested reallocation of Channel 240A to Dos Palos (pop. 4,196),¹ is mutually exclusive with its present use at Livingston (pop. 7,317). The distance between the two communities is 27.7 kilometers whereas a minimum distance of 115 kilometers is required in this instance.

3. In further support of the proposal petitioner advises that Dos Palos is an incorporated community that is governed by a Mayor and four-member town council, and has its own fire, police, water and sewer services. Additionally, petitioner advises that there are churches, clubs, organizations, residential areas and numerous business establishments located in Dos Palos. Further, petitioner asserts that adoption of its proposal would result in a preferential arrangement of allotments consistent with the Revision of FM Assignment Policies and Procedures, 90 FCC 2d 88 (1992),² as the reallocation will enable Station KNTO to provide a first local aural transmission

¹ Population figures were taken from the 1990 U.S. Census.

² The allotment priorities are: (1) first fulltime aural service; (2) second fulltime aural service; (3) first local service;

service to the residents of Dos Palos, whereas Livingston will retain local aural transmission from Stations KLVN, Channel 202A and KYCC, Channel 206A.³ Petitioner acknowledges that there will be a loss of service north of the present KNTD site if its proposal is granted, but that the entire loss area will continue to receive reception service from at least five fulltime stations.⁴ Further, petitioner reports that there is also an area in which the 60 dBu service area of KNTD will be extended as a result of the proposed reallocation. Moreover, petitioner advises that as Dos Palos is not located in or near any urbanized area, no Tuck showing is required for this proposal.⁵

4. A staff engineering review of the proposal confirms that Channel 240A can be allotted to Dos Palos consistent with the requirements of Section 73.207(b)(1) of the Commission's Rules utilizing the petitioner's proposed site located 14.5 kilometers (9.0 miles) northwest of the community at coordinates 37-04-03 NL and 120-44-52 WL. Our review also has determined that the loss area of Channel 240A at Livingston contains 156,405 people within an area of 1,065 square kilometers, while the gain area at Dos Palos contains 29,524 people in an area of 1,739 square kilometers. Therefore, this proposal would produce a net loss of 126,881 people presently served, and a gain of 674 square kilometers. However, we have also confirmed that both the loss area at Livingston and the gain area at Dos Palos are entirely covered by at least five fulltime reception services and therefore are well served areas.

5. In consideration of the above, and on a comparative basis, the petitioner's proposal would provide a first local aural transmission service to Dos Palos (priority three) whereas Livingston will retain local service (priority four). Therefore, we shall propose to reallocate Channel 240A from Livingston to Dos Palos, California, and modify the license for Station KNTD, as requested. In accordance with the provisions of Section 1.420(i) of the Commission's Rules, we will not accept competing expressions of interest in the use of Channel 240A at Dos Palos.

6. Accordingly, we seek comments on the proposed amendment to the FM Table of Allotments, Section 73.202(b) of the Commission's Rules with respect to the communities listed below, as follows:

and (4) other public interest matters. [Co-equal weight is given to priorities (2) and (3).]

³ The existence of noncommercial educational stations in a community are considered for purposes of applying Section 307(b) of the Communications Act and determining the number of local transmission services. See Valley Broadcasters, Inc., 5 FCC Rcd 2785 (1990), reversing Kaldor Communications, Inc., 98 FCC 2d 292, 294 n.4 (Rev. Bd. 1984).

⁴ Petitioner reports that service is presently provided to the proposed loss area by Stations KATM, Ch. 277B, Modesto, KOSO, Ch. 226B, Patterson, KHTN, Ch. 284B, Los Banos, KABX, Ch. 248B, Merced, KJMQ, Ch. 223A, Atwater, as well as San Francisco AM Stations KGO (810 khz), and KNBR (680 khz).

⁵ Faye and Richard Tuck, Inc., 3 FCC Rcd 5374 (1988), and Headland, Alabama and Chattahoochee, Florida, 10 FCC Rcd 1052 (1995).
