**Released: June 13, 2000**

## **Office of Engineering and Technology Includes Hyperlinks to all Referenced Documents in Wireless Medical Telemetry Service Report and Order**

On June 12, 2000, the Commission released the text of the Report and Order adopted on June 8, 2000 that established a new Wireless Medical Telemetry Service. The text will be available electronically on the Commission's web site at [www.fcc.gov/oet/dockets/et99-255/](http://www.fcc.gov/oet/dockets/et99-255/). The Office of Engineering and Technology is pleased to announce that this is the first Commission item that includes hyperlinks to all comments, reply comments, rule citations and other documents referenced in the footnotes. Readers with the appropriate software will be able to click on the hyperlinks to view the referenced material. We will consider adding such hyperlinks to other documents in the future as resources permit.

Please note that the Internet addresses in the hyperlinks were correct at the time the document was prepared, but may change over time. We do not have dedicated staff to update these addresses, so some links may become out of date as time progresses.

For further information about this notice, please contact Hugh L. Van Tuyl of the Office of Engineering and Technology at: (202) 418-7506, email: [hvantuyl@fcc.gov](mailto:hvantuyl@fcc.gov).
