**COMMON CARRIER BUREAU SEEKS COMMENT ON THE
PETITION OF THE PUBLIC SERVICE COMMISSION OF SOUTH
CAROLINA FOR DELEGATION OF AUTHORITY TO
IMPLEMENT NUMBER CONSERVATION MEASURES**

NSD File No. L-01-87
CC Docket 96-98
CC Docket 99-200

Pleading Cycle Established

COMMENTS: June 1, 2001

REPLY COMMENTS: June 22, 2001

On September 28, 1998, the Federal Communications Commission (Commission) released the *Pennsylvania Numbering Order*,¹ which delegated authority to state public utility commissions to order number rationing in jeopardy situations and encouraged state commissions to seek further limited delegations of authority to implement number conservation methods.

On March 31, 2000, the Commission released the *Numbering Resource Optimization First Report and Order*.² In the *Numbering Resource Optimization First Report and Order*, the Commission granted state commissions the authority to engage in certain number conservation measures. The Commission also reiterated that the state delegations of authority to implement number conservation measures were interim in nature and would be superseded by forthcoming decisions in the *Numbering Resource Optimization* proceeding. The Commission, however, continued its delegation to the

Dec. 29, 2000) (addressing petitions for clarification and reconsideration that were filed in response to the *Pennsylvania Numbering Order*).

Common Carrier Bureau (Bureau) to rule on state petitions for additional delegation of numbering authority when no new issues are raised.

In paragraph 170 of the *Numbering Resource Optimization First Report and Order*, the Commission required that state commissions seeking thousands-block number pooling authority demonstrate that: (1) a numbering plan area (NPA) in its state is in jeopardy; (2) the NPA in question has a remaining life span of at least a year; and (3) the NPA is in one of the largest 100 Metropolitan Statistical Areas (MSAs), or alternatively, the majority of wireline carriers in the NPA are LNP-capable. The Commission also determined that a state commission may expand pooling to another MSA only after pooling had been implemented in the initial MSA and after providing carriers sufficient time to adjust their networks for thousands-block number pooling.

On April 25, 2001, the Public Service Commission of South Carolina (South Carolina Commission or Petitioner) filed a petition requesting additional delegated authority to implement number conservation measures in the state of South Carolina.³ Specifically, the Petitioner requests authority to: (1) implement mandatory thousands-block number pooling for NPAs in the Charleston-North Charleston and Columbia MSAs; (2) order sequential number assignments to minimize thousands-block contamination; (3) implement NXX code rationing procedures following area code relief to prevent a rush of demand for codes; and (4) reclaim unused or minimally contaminated thousands-blocks. If pooling authority is not granted in whole or in part, Petitioner requests that the Charleston-North Charleston and Columbia MSAs be placed in the initial round of national thousands-block number pooling. However, if pooling is granted, the South Carolina Commission requests a waiver of the requirement that pooling may only occur in one MSA at a time.

We hereby seek comment on the South Carolina Commission's request for delegated authority to implement the number conservation measures mentioned above. A copy of the petition will be available during regular business hours at the FCC Reference Center, Portals II, 445 12th Street, S.W., Suite CY-A257, Washington, D.C. 20554, (202) 418-0270.
