DA 01-1289
May 25, 2001

Low Power Television Auction No. 81 Mutually Exclusive Proposals Subject to Auction

Mass Media Bureau Announces 60-Day Settlement Period Ending July 24, 2001

On June 23, 2000, the Mass Media Bureau and Wireless Telecommunications Bureau (Bureaus) announced a limited auction filing window for certain low power television (LPTV), television translator, and Class A television broadcast stations.¹ The filing window was partially extended to permit the engineering portion of the filing to be submitted up to August 31, 2000.² By this Public Notice, the Bureaus provide, as Attachment A, a list of all proposals received during the filing window, as extended, that are mutually exclusive with other proposals

¹ See Notice and Filing Requirements Regarding July 31 through August 4, 2000, Limited Low Power Television/Television Translator/Class A Television Auction Filing Window, *Public Notice*, DA 00-1383, released June 23, 2000. Since any mutually exclusive application filed during the window would be subject to the Commission's auction procedures, applicants were required to file electronically an FCC Form 175, Application to Participate in an FCC Auction, by the August 4, 2000 deadline. LPTV and television translator filers were required also to file Section I, the Tech Box portion of Section III, and Question 12 of Section III of FCC Form 346. Class A television filers were required also to submit Section I and the Tech Box portion of Section III of FCC Form 301-CA.

² See Limited Low Power Television/Television Translator/Class A Television Auction Filing Window Partially Extended to August 31, 2000, *Public Notice*, DA 00-1648, released July 25, 2000.

submitted in the filing window.³ Since the proposals listed in Attachment A are mutually exclusive, they are subject to the Commission's competitive bidding procedures.⁴

60-Day Settlement Period Ending July 24, 2001. By this Public Notice, the Bureaus also announce a 60-day period beginning with the release of this Public Notice and ending July 24, 2001, for parties with proposals in the mutually exclusive groups listed in Attachment A to enter into settlement agreements or otherwise resolve their mutual exclusivities by means of engineering solutions.⁵ Parties must ensure that their settlement agreements comply with the provisions of Section 311(c) of the Communications Act of 1934, as amended, and the pertinent requirements of Section 73.3525 of the Commission's Rules, including, *inter alia*, the reimbursement restrictions. The parties must submit the agreements and affidavits required by Section 73.3525 and/or any engineering submission by the July 24, 2001, deadline. The staff will request complete FCC Form 346's from the proposed permittee(s) upon approval of the settlement submission.

Applicants resolving their mutual exclusivities by means of engineering solution may do so by submitting an amended Section I, the Tech Box of Section III and Question 12 of Section III of FCC Form 346 (June 2000 version).⁶ The staff will request complete FCC Form 346's upon confirmation that the engineering submission does, in fact, resolve the specific mutual exclusivity. Technical amendments submitted by applicants to resolve their mutual exclusivities must be minor, as defined by the applicable rules, and must not create new mutual exclusivity or application conflict.⁷

Consistent with the *Broadcast First Report and Order* and Section 73.5002 of the Commission's Rules, such engineering submissions must resolve the mutual exclusivities for the entire mutually exclusive group. Therefore, except as provided below, no "partial settlements" (which reduce the number of proposals in a group, but which do not completely resolve the mutual exclusivity of that group) will be permitted. Certain groups in Attachment A contain "daisy chains" of mutual exclusivity whereby proposals are directly mutually exclusive with

³ Parties should note that certain proposals filed in the LPTV window were previously identified as non-mutually exclusive on a Public Notice issued February 13, 2001. *See* Low Power Television Auction No. 81 Non-Mutually Exclusive Proposals, *Public Notice*, DA 01-383, released February 13, 2001. However, upon further review, it was determined that certain of the proposals listed on that Public Notice were in fact mutually exclusive and they have been included in this Public Notice. The long form applications (Form 346) that were filed by these parties will remain pending until the outcome of this auction proceeding at which time they will either be returned or processed, if they were filed by a winning bidder. Parties whose applications are returned may request that their filing fee(s) be refunded. *See* 47 C.F.R. § 1.1113.

⁴ *See* 47 U.S.C. § 309(j); 47 C.F.R. § 73.5000(a); *see generally*, *First Report and Order, Implementation of Section 309(j) of the Communications Act -- Competitive Bidding for Commercial Broadcast and Instructional Television Fixed Service Licenses*, 13 FCC Rcd 15920 (1998) ("*Broadcast First Report and Order*").

⁵ *See Broadcast First Report and Order*, 13 FCC Rcd at 15927, 15980-81.

⁶ The mutually exclusive applicants' FCC Form 346 Section I and the Section III submissions filed during the filing window are available for review in the Commission's Reference Information Center.

⁷ *See* 47 C.F.R. § 73.3572.

certain proposals in the group but not others. A “daisy chain” occurs when two or more proposals contain service areas that do not directly overlap but are linked together into a chain by the overlapping proposal(s) of other(s). In such cases, the potential exists to grant more than one application and issue more than one construction permit for that mutually exclusive group. Therefore, in the daisy chain groups, we will permit “partial settlements” by which some of the daisy chain applicants can separate themselves from the daisy group to form a new, smaller mutually exclusive group. However, the mutual exclusivity in the new, smaller group must be completely resolved by either engineering amendment or settlement. We will not consider settlements that simply break apart a daisy chain group into smaller groups of applicants whose mutual exclusivities still must be resolved by auction.

Anti-Collusion Rule. The prohibition of collusion set forth in 47 C.F.R. § 1.2105(c) became effective upon the filing of the FCC Form 175, Application to Participate in an FCC Auction.⁸ However, the Commission’s Rules provide for a limited opportunity to settle, or otherwise resolve mutual exclusivities by means of engineering solutions, following the filing of the FCC Form 175 applications.⁹ Specifically, parties in MX groups listed in Attachment A may discuss possible settlement agreements or technical solutions with other parties in their group during the limited period which commences with the release of this public notice and ends July 24, 2001. Once the settlement period is completed, the anti-collusion restrictions once again take effect. The Commission will proceed to auction with any competing mutually exclusive proposals that are not resolved by the parties.

When and Where to File. An original and four copies of all engineering proposals to resolve mutual exclusivity and/or settlement agreements must be filed **on or before July 24, 2001**, with the Commission's Secretary, Magalie Roman Salas, Office of the Secretary, Federal Communications Commission, 445 Twelfth Street, S.W. Room TW-A325, Washington, D.C. 20054. In addition, it is requested that a courtesy copy of all such filings be delivered to Shaun Maher, Video Services Division, Mass Media Bureau, Federal Communications Commission, 445 12th Street, S.W., Room 2-A820, Washington, D.C. 20554.

Applicants submitting engineering proposals, may do so electronically. Instructions for use of the electronic filing system are available in the CDBS User’s Guide, which can be accessed from the electronic filing web site at:

<http://www.fcc.gov/mmb>

For assistance with electronic filing, call the Mass Media Bureau Help Desk at (202) 418-2MMB.

The staff will withhold further action on the mutually exclusive proposals listed in Attachment A pending submission of settlement agreements or engineering proposals to resolve

⁸ See 47 C.F.R. § 73.5002(d).

⁹ See *Broadcast First Report and Order*, 13 FCC Rcd at 15927, 15980-81.

mutual exclusivity. Following the close of the settlement period, the Bureaus will announce an auction date and propose auction procedures for selecting among the remaining MX proposals.

For additional information, contact Shaun Maher (legal) or Hossein Hashemzadeh (technical) of the Video Services Division of the Mass Media Bureau at (202) 418-1600 .
