LOWER AND UPPER PAGING BANDS AUCTION SCHEDULED FOR OCTOBER 30, 2001

TECHNICAL MODIFICATIONS REGARDING ACCEPTABLE BIDS

BIDDER SEMINAR SCHEDULED FOR SEPTEMBER 5, 2001

Report No. AUC-01-40-F (Auction No. 40)

By this Public Notice, the Wireless Telecommunications Bureau ("Bureau") announces technical modifications to previously released information as well as new dates and deadlines with respect to the upcoming auction of lower and upper paging bands scheduled for October 30, 2001 ("Auction No. 40").

With the exception of information modified by this Public Notice, the information provided in previous public notices regarding Auction No. 40 remains unchanged.¹ As previously announced, all short-form applications (FCC Form 175) previously filed for Auction No. 40 have been deemed ineffective and purged from the FCC's computer system.²

Since the release of the *Auction No. 40 Procedures Public Notice*, the Bureau modified the formula for determining the defined increments used to calculate acceptable bids. Previously, at the time of the *Auction No. 40 Procedures Public Notice*, the formula to be used was: Defined Increment = Rounded (Standing High Bid*Factor³) – Standing High Bid.⁴ (In the absence of a

² Auction of Licenses for Lower and Upper Paging Bands Postponed Until October 30, 2001, *Public Notice*, DA 01-1307 (rel. May 25, 2001), 66 Fed. Reg. 30467 ("Auction No. 40 Postponement Public Notice").

³ The Factor is determined based on the percentage of the high bid used to calculate the defined increment. At the outset of the auction, the Bureau will use twenty percent (20%), in which case the Factor will be 1.2. The Bureau has discretion to change the percentage during the auction. If the percentage is thirty percent, for example, the Factor will be 1.3. In addition, the Bureau has discretion during Stage III of the auction to use a second, smaller

standing high bid, the minimum opening bid is used in its place.) The *Auction No. 40 Procedures Public Notice* indicated that the product of the Standing High Bid (or minimum opening bid) and the Factor would be rounded to the nearest \$100 for results below \$10,000 and to the nearest \$1,000 for amounts above \$10,000.⁵

By this Public Notice, the Bureau announces a modification to the method of rounding. The product of the Standing High Bid (or minimum opening bid) and the Factor will be rounded as follows: amounts below \$1,000 will be rounded to the nearest \$10; amounts above \$1,000 but below \$10,000 will be rounded to the nearest \$100; and amounts above \$10,000 will be rounded to the nearest \$1,000. In all other respects, acceptable bids will be calculated as described in the *Auction No. 40 Procedures Public Notice*.⁶

The Bureau also has changed the number of acceptable bids higher than the minimum acceptable bid for each round. In the *Auction No. 40 Procedures Public Notice*, the Bureau announced that in each round, eligible bidders would be able to place either the minimum accepted bid or any of nine higher bids, each higher bid being equal to the minimum accepted bid plus one to nine times the relevant defined increment.⁷ By this Public Notice, the Bureau announces that, in each round, eligible bidders will be able to place either the minimum accepted bid or any of eight higher bids, each higher bid being equal to the minimum accepted bid plus one to eight times the relevant defined increment.

Additionally, the Bureau announces key dates for Auction No. 40 events, including the bidder seminar scheduled for Wednesday, September 5, 2001. Participants planning to attend the bidder seminar must register using the attached form by Friday, August 31, 2001.
