## **WTB DENIES SPRINT PCS REQUEST TO ADVANCE REPLY COMMENT DATE ON WIRELESS LNP FORBEARANCE PETITION FILED BY VERIZON WIRELESS**

### **WT DOCKET NO. 01-184**

The Federal Communications Commission's (Commission's) rules require commercial mobile radio service (CMRS) providers to support service provider local number portability (LNP) in the top 100 Metropolitan Statistical Areas (MSAs) by November 24, 2002.<sup>1</sup> Service provider LNP is a service that provides residential and business telephone customers with the ability to retain, at the same location, their existing telephone numbers when switching from one local telephone service provider to another.

On July 26, 2001, Verizon Wireless (Verizon) submitted a petition for forbearance from the LNP requirements.<sup>2</sup> On August 7, 2001, the Verizon petition was placed on public notice.<sup>3</sup> Comments on the Verizon petition were due on September 21, 2001 and reply comments are due on or before October 22, 2001.

On September 17, 2001, Sprint PCS (Sprint) filed a petition to advance the reply comments deadline by ten days from October 22 to October 12, 2001.<sup>4</sup> Sprint argues that such action would give the Commission additional time to deliberate and would permit more prompt action in this matter.<sup>5</sup>

We deny Sprint's petition to advance the reply comment date. Advancing the reply comment date is not necessary to ensure that the Commission act promptly to address Verizon's petition for forbearance. In fact, advancing the reply comment date might have an adverse effect on our ability to reach a decision on

the issues raised in the petition by limiting the ability of interested parties to prepare thorough and thoughtful reply comments in response to complex issues concerning technological innovation.

We note that Sprint also requests that the Commission adopt an expedited decision-making process to address the Verizon petition.<sup>6</sup> We have included Sprint's request as part of the record in this proceeding and will consider it as part of our consideration of the Verizon petition.

<sup>6</sup> *Sprint Petition* at 8-9. We note that, alternatively, Sprint requests that the Commission either (a) suspend the LNP deadline to a date one year after it enters an order in this forbearance proceeding or (b) act favorably on the pending reconsideration petitions that seek separation between the LNP and number pooling start dates by delaying the LNP compliance deadline until January 2004. *Sprint Petition* at 1. As indicated above, we will consider Sprint's requests as part of the Verizon request.
