SUPPLEMENTAL DUE DILIGENCE INFORMATION FOR THE MULTIPLE ADDRESS SYSTEMS SPECTRUM AUCTION SCHEDULED FOR NOVEMBER 14, 2001

Report No. AUC-01-42-E (Auction No. 42)

On July 27, 2001, the Wireless Telecommunications Bureau released a Public Notice that provided due diligence information for potential bidders in the Multiple Address Systems (“MAS”) auction scheduled for November 14, 2001.¹ This Public Notice provides additional information to the potential bidders in the upcoming MAS auction. Specifically, the Attachment to this Public Notice lists matters pending before the Commission that relate to licenses or applications in the MAS spectrum scheduled for auction. Potential bidders are solely responsible for investigating and evaluating the degree to which such pending matters may affect spectrum availability in areas where they seek EA licenses.

In addition, certain decisions reached in these matters may be the subject of additional reconsideration or appeal. We note that resolution of these matters could have an impact on the availability of spectrum for EA licensees in the MAS bands. Moreover, the Commission makes no representations or guarantees that the listed matters in the Attachment to this Public Notice are the only pending matters that could affect spectrum availability in the MAS bands.

Potential bidders may obtain licensing records for the 928/959 MHz bands through the Wireless Telecommunications Bureau’s licensing database on the World Wide Web at <http://www.fcc.gov/wtb/uls>. Potential bidders should direct questions regarding the search capabilities to the FCC Technical Support hotline at (202) 414-1250 (voice), (202) 414-1255 (TTY), or via e-mail at ulscomm@fcc.gov. The hotline is available to assist with questions Monday through Friday, from 7:00 AM to 10:00 PM ET, Saturday, 8:00 AM to 7:00 PM ET, and Sunday, 12:00 noon to 6:00 PM, ET. In order to provide better service to the public, all calls to the hotline are recorded.

The Commission makes no representations or guarantees regarding the accuracy or completeness of information in its databases, including the accuracy or completeness of information that has been provided by incumbent licensees and incorporated into the databases. Potential bidders are strongly encouraged to physically inspect any sites located in or near the geographic area for which they plan to bid.
