## **COMMON CARRIER BUREAU SEEKS COMMENT ON REMAND OF \$650 MILLION SUPPORT AMOUNT UNDER INTERSTATE ACCESS SUPPORT MECHANISM FOR PRICE CAP CARRIERS**

### **PLEADING CYCLE ESTABLISHED**

**CC Docket Nos. 96-262, 94-1, 99-249, and 96-45**

**Comment Date: 30 days from publication in the Federal Register**  
**Reply Comment Date: 45 days from publication in the Federal Register**

On May 31, 2000, the Federal Communications Commission adopted the *CALLS Order*, which reformed the interstate access rate structure for price cap carriers by removing implicit universal service support and replacing it with explicit support.<sup>1</sup> To accomplish this, the Commission created a new universal service support mechanism called the interstate access support mechanism.<sup>2</sup> The Commission directed that \$650 million annually be made available under the interstate access support mechanism. The Commission concluded that this amount would provide sufficient, but not excessive, support.<sup>3</sup> In adopting this amount, the Commission noted that \$650 million fell within a range of proposed amounts submitted in the proceeding, and reflected agreement among disparate interests, including interexchange carriers and price cap carriers.<sup>4</sup>

On September 10, 2001, the United States Court of Appeals for the Fifth Circuit remanded the *CALLS Order* to the Commission for further analysis and explanation regarding

the establishment of the \$650 million amount.<sup>5</sup> The court concluded that the Commission provided inadequate justification for the support amount.<sup>6</sup> Specifically, the court concluded that the Commission “failed to exercise sufficiently independent judgment in establishing the \$650 million amount,” by granting too much deference to the fact that many parties agreed that \$650 million was an adequate support amount.<sup>7</sup> The court recognized that identifying a specific amount of explicit support to replace implicit support is “an imprecise exercise,” but held that the Commission must better explain how it arrived at the \$650 million amount.<sup>8</sup> In particular, the court noted that the Commission should better address the relevance of studies filed in the proceeding to the establishment of the support amount, including the AT&T study using the synthesis model, the ALTS and Time Warner studies, and other studies.<sup>9</sup> The court therefore directed that the Commission provide further analysis and explanation justifying \$650 million as an appropriate amount of support available under the interstate access universal service support mechanism.<sup>10</sup>

Accordingly, we seek further comment on the \$650 million support amount available under the interstate access support mechanism. Specifically, we seek comment on the uses of a cost model, including the Commission’s forward-looking high-cost model or the study submitted by AT&T in this proceeding, to identify the appropriate amount available under the interstate access support mechanism. We also seek comment on the use of other studies or analyses to determine whether \$650 million is the support amount that best serves the Commission’s universal service goals.

Pursuant to sections 1.415 and 1.419 of the Commission’s rules, interested parties may file comments 30 days or fewer from publication in the Federal Register, and reply comments 45 days or fewer from publication in the Federal Register. Comments may be filed using the Commission’s Electronic Comment Filing System (ECFS) or by filing paper copies.<sup>11</sup> Comments filed through the ECFS can be sent as an electronic file via the Internet to <http://www.fcc.gov/e-file/ecfs.html>. Generally, only one copy of an electronic submission must be filed. In completing the transmittal screen, commenters should include their full name, Postal

The court also reversed and remanded the Commission’s adoption of a 6.5 X-Factor – which, under the CALLS plan, determines the rate at which access charges are reduced to target levels -- because the Commission failed to state a rational basis to support the 6.5 percent figure. *Id.* at 328-29.
