**NOTICE OF PROPOSED RULE MAKING**

**Adopted: December 19, 2001**

**Released: December 13, 2001**

Comment Date: February 4, 2002  
Reply Comment Date: February 14, 2002

By the Chief, Video Services Division:

1. The Commission has before it a petition for rule making filed by Zavaletta Broadcasting of Pueblo ("Zavaletta"), an applicant for a construction permit for a new television station to operate on channel 26+ at Pueblo, Colorado. Zavaletta requests the substitution of channel 48 for channel 26+.

2. Zavaletta seeks to invoke the provisions outlined in the Commission's Public Notice (*Public Notice*) released on November 22, 1999, DA 99-2605. In that *Public Notice* the Commission announced a window filing opportunity to allow persons with certain pending requests to modify their requests. The window noted that applicants with pending applications for new full-service NTSC television stations on channels 2-59 at locations inside of the "TV Freeze Areas" could file a petition for rule making seeking a new channel below channel 60. The *Public Notice* also stated that freeze-area applicants on channels below 60 seeking to change channels must demonstrate that interference to a DTV station would be caused if the requested channel change was not made. In this regard, Zavaletta states that channel 26+ would interfere with the co-channel DTV allotment for educational station KTSC in Pueblo. Thus, Zavaletta requests the channel substitution in order to provide protection to station KTSC.

3. We believe petitioner's proposal warrants consideration. A staff engineering analysis indicates that Channel 48 can be substituted for channel 26+ with a zero offset consistent with the criteria set forth in the Commission's *Public Notice* for evaluating requests for NTSC channel changes. The coordinates for channel 48 at Pueblo are North Latitude 38-21-30 and West Longitude 104-33-24. Pursuant to the Commission's *Public Notice*, we will not accept competing expressions of interest

in the use of television channel 48 at Pueblo.<sup>1</sup>

3. Accordingly, we seek comments on the proposed amendment of the TV Table of Allotments, Section 73.606(b) of the Commission's Rules, for the community listed below, to read as follows:

<u>City</u>	<u>Present</u>	<u>Channel No.</u> <u>Proposed</u>
Pueblo, Colorado	5, *8, 26+ 32-	5, *8, 32- 48

4. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein. In particular, we note that a showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be allotted.

5. Interested parties may file comments on or before February 4, 2002, and reply comments on or before February 19, 2002, and are advised to read the Appendix for the proper procedures. Comments should be filed with the Secretary, Federal Communications Commission, Washington, D.C. 20554. Additionally, a copy of such comments should be served on the petitioner, or its counsel or consultant, as follows:

Linda G. Coffin  
 Skadden, Arps, Slate, Meagher & Flom LLP  
 1440 New York Avenue, NW  
 Washington, DC 20005  
 (Counsel for Zavaletta Broadcasting of Pueblo)

6. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rule making proceedings to amend the TV Table of Allotments, Section 73.606(b). See Certification That Sections 603 and 604 of the Regulatory Flexibility Act Do Not Apply to Rule Making to Amend Sections 73.202(b), 73.504 and 73.606(b) of the Commission's Rules, 46 FR 11549, February 9, 1981. The Regulatory Flexibility Act of 1980 would also not apply to rule making proceedings to amend the DTV Table of Allotments, Section 73.622(b) of the Commission's Rules.

<sup>1</sup> New and amended rulemakings petitions submitted during the noted window filing opportunity will be subject to the Commission's normal notice and comment procedures. However, the Commission indicated in the *Sixth Further Notice of Proposed Rule Making*, 11 FCC Rcd 10968 (1996), that new proposals for additional NTSC channel allotments will not be accepted. Furthermore, new parties may not counterproposal a new NTSC allotment in the same or nearby communities. The opportunity for filing counterproposals is limited to those parties with existing petitions and applications that are the subject of the announced filling window indicated in the Commission's *Public Notice*.

7. For further information concerning this proceeding, contact Pam Blumenthal, Mass Media Bureau, (202) 418-1600. For purposes of this restricted notice and comment rule making proceeding, members of the public are advised that no ex parte presentations are permitted from the time the Commission adopts a Notice of Proposed Rule Making until the proceeding has been decided and such decision is no longer subject to reconsideration by the Commission or review by any court. An ex parte presentation is not prohibited if specifically requested by the Commission or staff for the clarification or adduction of evidence or resolution of issues in the proceeding. However, any new written information elicited from such a request or a summary of any new oral information shall be served by the person making the presentation upon the other parties to the proceeding unless the Commission specifically waives this service requirement. Any comment which has not been served on the petitioner constitutes an ex parte presentation and shall not be considered in the proceeding. Any reply comment which has not been served on the person(s) who filed the comment, to which the reply is directed, constitutes an ex parte presentation and shall not be considered in the proceeding.
