**NOTICE OF PROPOSED RULE MAKING**

By the Chief, Allocations Branch:

1. The Allocations Branch has before it a petition for rulemaking filed by Word of God Fellowship, Inc. ("petitioner"), requesting the reallocation of Television Channel 29 from Decatur to Plano, Texas.<sup>1</sup> Decatur, 1990 U.S. Census population 4,252 persons, has no other television stations or allotments.

2. Petitioner filed its petition pursuant to the provisions of Section 1.420(i) of the Commission's Rules which permits the modification of a station's authorization to specify a new community of license without affording other parties the opportunity to file competing expressions of interest.<sup>2</sup> In order to determine whether the proposal before us will result in a preferential arrangement of allotments, we will be guided by the television allotment priorities in the Television Sixth Report and Order.<sup>3</sup>

<sup>1</sup> This petition was originally filed as a request to reallocate an unbuilt station and change transmitter site, which was returned because it proposed the removal of the sole local transmission service. A Petition for reconsideration of this action was held in abeyance pending outcome of the Digital Television proceeding. Commission records now show that the licensee has built the station and been granted modifications which place its transmitter site within the city limits of Dallas, Texas, which has obviated the need for a change of transmitter site. Petitioner's petition for reconsideration will be dismissed as moot.

<sup>2</sup> See *Report and Order* in MM Docket No. 88-526, 4 FCC Rcd 4870 (1989), recon granted in part, 5 FCC Rcd 7094 (1990).

<sup>3</sup> These priorities are: 1) To provide at least one television service to all parts of the United States. 2) To provide each community with at least one television broadcast station. 3) To provide a choice of at least two television services to all parts of the United States. 4) To provide each community with at least two television broadcast stations. 5) Any channels which remain unassigned under the foregoing priorities will be assigned to the various communities depending on the size of the population of each community, the geographical location of such community, and the number of television services available to such community from television stations located in other communities. See *Sixth Report and Order* in Docket Nos. 8736, 8975, 9175 and 8976, 41 FCC 148, 167 (1952)

3. Petitioner states that a grant of its proposal will serve the public interest because the station will gain the advantage of being licensed to the larger community of Plano, with a U.S. Census population of 128,713 persons, which will give it an economic advantage with potential advertisers in the competing Dallas/Forth Worth Television market. In addition, since it has relocated its transmitter to a site within the Dallas city limits, it now proposes no change of transmitter site and will continue to serve its former community, so there will be no loss of service. Citing the Commission's decisions in the *Change of Community MO&O*<sup>4</sup> and *Ardmore, Oklahoma and Sherman, Texas*,<sup>5</sup> it argues that its proposal should be considered because its proposal is mutually exclusive with its current operation, it proposes no change of transmitter site and therefore no loss of reception service, will provide Plano with its first local transmission service, and will continue to serve the community of Decatur with a city grade signal. In addition, it states that its economic survival dictates that it be licensed to a larger community.

4. Although we note that this proposal would remove Decatur's sole local television service and we are reluctant to remove a community's sole local service,<sup>6</sup> we will seek comment on this proposal in order to determine whether this proposal could promote the public interest. We believe that it warrants our consideration because it would provide the community of Decatur with its first local television service and involves no actual loss of service. Channel 29 can be reallocated from Plano to Decatur at petitioner's licensed site.<sup>7</sup> Therefore, we seek comment on whether the reallocation would result in a preferential arrangement of allotments.

5. We also note that this proposal includes a move in to larger Urbanized Areas. Plano is in the Dallas-Fort Worth Urbanized Area. Further, our analysis shows that the proposal will serve 100% of the Lewisville Urbanized Area, and 81.9% of the Dallas-Fort Worth Urbanized Area. The DTV city-grade contour will cover 100% of the Lewisville, Denton and Dallas-Fort Worth Urbanized Areas. Accordingly, petitioner is also to include in its comments a public interest justification for the reallocation of Channel 29 from the smaller community of Decatur to the much larger community of Plano and these Urbanized Areas. Petitioner is to use the analysis set forth in our decisions in *Huntington* and *Tuck*.<sup>8</sup>

6. We also note that petitioner has not supplemented its petition with a request to reallocate the companion digital channel allotted to Decatur, Channel 30. Petitioner is to state in its comments whether it seeks this reallocation, and provide justification for this reallocation.

7. Accordingly, we seek comments on the proposed amendment of the FM Table of
