AUCTION OF LICENSES FOR 698-746 MHz BAND

Status of FCC Form 175 Applications to Participate in the Auction

Extension of Upfront Payment Deadline

Report No. AUC-02-44-E (Auction No. 44)

The Federal Communications Commission (“Commission”) has received 153 FCC Form 175 applications to participate in Auction No. 44 scheduled to begin on Wednesday, June 19, 2002, for 758 licenses in the Lower 700 MHz band. The applications have been reviewed for completeness and compliance with the Commission’s rules, and have been classified into the categories listed below.

Also, please note that the FCC has extended the upfront payment deadline from Tuesday, May 28, 2002 at 6:00 p.m. ET until Thursday, May 30, 2002 at 6:00 p.m. ET.

Application Categories:

ACCEPTED FOR FILING..... 72 Applications

INCOMPLETE..... 81 Applications

Accepted: Applications accepted for filing are listed alphabetically in Attachment A. **These applicants will become qualified bidders upon receipt of the required upfront payment due by 6:00 p.m. ET on Thursday, May 30, 2002.**¹ With respect to the FCC Form 175 applications, these applicants need take no further action except as may be necessary to maintain the accuracy of their applications.² Attachment A also includes FCC account numbers that were automatically created by the FCC software system for each applicant and indicates the licenses selected by each applicant on its 175 filing.

¹ See 47 C.F.R. § 1.2106.

² See 47 C.F.R. § 1.65.

Incomplete: Applications found to be incomplete are listed alphabetically in Attachment B. Applicants whose FCC Form 175 applications have been deemed incomplete will receive overnight correspondence indicating what information is required to make the applications acceptable for filing. **These applicants may become qualified bidders only if they: (1) make the required upfront payments by 6:00 p.m. ET on Thursday, May 30, 2002; and (2) resubmit their applications by 6:00 p.m. ET on Friday, May 31, 2002, to correct the deficiencies indicated.** Applicants also must maintain the accuracy of their FCC Form 175 applications as required by the Commission's rules.³ Applicants are advised that Attachment B includes FCC account numbers that were automatically created by the FCC software system for each applicant.

The filing window for resubmitting FCC Form 175 applications is now open. Corrected applications must be filed no later than **6:00 p.m. ET on Friday, May 31, 2002.** This will be the only opportunity to cure FCC Form 175 defects; late resubmissions will not be accepted. In addition, if an application remains incomplete or otherwise deficient after the resubmission deadline has passed, the application will be dismissed.

Waiver Requests: In Attachments A and B, applications denoted with an asterisk (*) have pending waiver request(s). In no event does acceptance of such applications indicate that the waiver requests have been or will be granted. Final resolution of these requests will be released separately and may affect an applicant's qualifications to participate in Auction No. 44 (either entirely or with respect to particular licenses) or eligibility for a bidding credit.⁴

UPFRONT PAYMENT DEADLINE

Upfront payments and accompanying FCC Remittance Advice (FCC Form 159) for Auction No. 44 are due at Mellon Bank, Pittsburgh, Pennsylvania, **no later than 6:00 p.m. ET on Thursday, May 30, 2002. Payments must be made by wire transfer and applicants must include their FCC Registration Number (FRN).** No other payment method is acceptable for this auction. Applicants are reminded to use their FRN and Taxpayer Identification Number (TIN), not their FCC Account Numbers on the FCC Form 159. Applicants must fax a completed FCC Form 159 (Revised February 2000) to Mellon Bank at (412) 209-6045 at least one hour before placing the order for the wire transfer (but on the same business day).

Applicants that have filed applications deemed to be incomplete, as noted in this public notice, must submit timely and sufficient upfront payments by the May 30, 2002 deadline for such payments, which is prior to the May 31, 2002 deadline for the resubmitted applications. If no upfront payment is made or the application remains incomplete following its resubmission, the application will be dismissed. If the applicant has provided its FRN, TIN and wire transfer instructions, any upfront payment made prior to dismissal will be refunded automatically.

We remind applicants that to avoid untimely upfront payments they should discuss arrangements (including bank closing schedules) with their banker several days before making the wire transfer,

³ *Id.*

⁴ The Commission's final resolution of the waivers requested by: (i) Cable & Communications Corporation; (ii) Coleman County Telecommunications, Ltd.; (iii) Northeast Nebraska Telephone Company; (iv) Panhandle Telecommunication Systems, Inc.; (v) Poka Lambro Telecommunications, Ltd.; and (vi) Corr Wireless Communications, LLC, may ultimately affect their eligibility for bidding credits.

and allow sufficient time for the transfer to be initiated and completed before the deadline. Detailed information regarding upfront payments including additional requirements for “former defaulters” can be found in the *Auction No. 44 Procedures Public Notice* under Section II.E and Section III.D.⁵

Note: Applicants are reminded to submit the same FRN with all future payments.

OTHER IMPORTANT INFORMATION

Qualified Bidders: Approximately one week after the upfront payment deadline, following Commission review of resubmitted FCC Form 175 applications, and correlation of payments and applications, a public notice listing all applicants qualified to bid in the auction will be released. The same public notice will also include instructions for participating in the mock auction and a bidding schedule for the mock auction and the first day of the auction.

Due Diligence: Potential bidders are reminded that there are a number of incumbent broadcast television licensees already licensed and operating in the 698-746 MHz band (television Channels 52-59) plus adjacent channels (*e.g.*, channels 51 and 60), and that incumbents may have multiple authorizations (*e.g.*, a license and a construction permit (CP) or modified CP). These incumbents may also have pending applications to make changes in authorized facilities. The Commission has made clear that geographic area licensees operating on the spectrum associated with Channels 52, 53, 54, 55, 56, 57, 58 and 59 must comply with the co-channel and the adjacent channel provision of Section 27.60 of the Commission’s rules.⁶ These limitations may restrict the ability of such geographic licensees to use certain portions of the electromagnetic spectrum or provide service to certain regions in their geographic license areas.

To aid potential bidders, the Bureau issued a Due Diligence Announcement listing incumbent licensees operating in these bands.⁷ The Commission makes no representations or guarantees that the matters listed in this Due Diligence Announcement are the only pending matters that could affect spectrum availability in these services.

Potential bidders also should be aware that certain applications (including those for modification), petitions for rulemaking, requests for special temporary authority (“STA”), waiver requests, petitions to deny, petitions for reconsideration, and applications for review may be pending before the Commission and relate to particular applicants or incumbent licensees. In addition, certain decisions reached in this proceeding may be subject to judicial appeal and may be the subject of additional reconsideration or appeal. We note that resolution of these matters could have an impact on the availability of spectrum in Auction No. 44. In addition, although the Commission will continue to act on pending applications, requests and petitions, some of these matters may not be resolved by the time of the auction.

Potential bidders may obtain information about incumbent licensees through the Media Bureau’s Consolidated Data Base System (CDBS) on the Internet at

⁵ See Auction of Licenses in the 698-746 MHz Band Scheduled for June 19, 2002, Notice and Filing Requirements, Minimum Opening Bids, Upfront Payments and Other Auction Procedures, *Public Notice*, DA 02-563, at 20, 23-26 (rel. March 20, 2002), 67 Fed. Reg. 20773 (“*Auction No. 44 Procedures Public Notice*”).

⁷ See Due Diligence Announcement for the Upcoming Auction of Licenses in the 698-746 MHz Band Scheduled for June 19, 2002, *Public Notice*, DA 02-904 (rel. April 18, 2002)

http://svartifoss2.fcc.gov/prod/cdbs/pubacc/prod/cdbs_pa.htm or at <http://www.fcc.gov/mb/>. The Commission makes no representations or guarantees regarding the accuracy or completeness of information in its data bases, including the accuracy or completeness of information that has been provided by incumbent licensees and incorporated into the databases. Potential bidders are strongly encouraged to physically inspect any sites located in, or near, the EAG, MSA, or RSA for which they plan to bid.

Potential bidders are solely responsible for identifying associated risks and for investigating and evaluating the degree to which such matters may affect their ability to bid on, otherwise acquire, or make use of licenses available in Auction No. 44.

Prohibition of Collusion: Bidders are reminded that Section 1.2105(c) of the Commission's rules prohibits applicants for licenses in any of the same geographic license areas from communicating with each other during the auction about bids, bidding strategies, or settlements unless they have identified each other as parties with whom they have entered into agreements under Section 1.2105(a)(2)(viii). The Bureau has previously stated that auction applicants who have applied for licenses in any of the same geographic areas, and who are also applicants for licenses in the same or competing services must affirmatively avoid all discussions with each other that affect, or in their reasonable assessment have the potential to affect their bidding or bidding strategy.⁸ For Auction No. 44, this prohibition became effective at the short-form application filing deadline on Wednesday, May 8, 2002, and will end on the post-auction down payment deadline, which will be announced in a future public notice.⁹ If parties had agreed in principle on all material terms, those parties must have been identified on the short-form application under Section 1.2105(c), even if the agreement had not been reduced to writing. If parties had not agreed in principle by the filing deadline, an applicant should not have included the names of those parties on its application, and must not have continued negotiations with other applicants for licenses in the same geographic areas.¹⁰

In addition, Section 1.65 of the Commission's rules requires an applicant to *maintain* the accuracy and completeness of information furnished in its pending application and to notify the Commission within 30 days of any substantial change that may be of decisional importance to that application.¹¹ Thus, Section 1.65 requires an auction applicant to notify the Commission of any violation of the anti-collusion rules upon learning of such violation. Bidders therefore are required to make such notification to the Commission immediately upon discovery.¹² For further details regarding the prohibition against collusion refer to the *Auction No. 44 Procedures Public Notice* under Section I.B.2.

⁸ See Wireless Telecommunications Bureau Provides Guidance on the Anti-Collusion Rule for D, E, and F Block Bidders, *Public Notice*, DA 96-1460, 15 FCC Rcd 6196 (1996).

⁹ 47 C.F.R. § 1.2105(c)(1).

¹⁰ See "Wireless Telecommunications Bureau Clarifies Spectrum Auction Anti-Collusion Rules," *Public Notice*, 11 FCC Rcd 9645 (1995).

¹¹ See 47 C.F.R. § 1.65.

¹² The Commission recently amended Section 1.2105 to require auction applicants to report prohibited communications in writing to the Commission immediately, but in no case later than five business days after the communication occurs. In the Matter of Amendment of Part 1 of the Commission's Rules – Competitive Bidding Procedures, *Seventh Report and Order*, 16 FCC Rcd 17546, 17555, ¶ 17 (2001).

Winning bidders will be required to disclose in their long-form applications the specific terms, conditions, and parties involved in all bidding consortia, joint ventures, partnerships, and other arrangements entered into relating to the competitive bidding process. Bidders found to have violated the anti-collusion rule may be subject to sanctions.¹³ In addition, applicants are reminded that they are subject to the antitrust laws, which are designed to prevent anti-competitive behavior in the marketplace. If a bidder is found to have violated the antitrust laws in connection with its participation in the competitive bidding process, it may be subject to forfeiture of its upfront payment, down payment, or full bid amount and may be prohibited from participating in future auctions.¹⁴

Auction Discount Voucher: On June 8, 2000, the Commission awarded Qualcomm, Inc. a transferable Auction Discount Voucher (“ADV”) in the amount of \$125,273,878.00.¹⁵ This ADV may be used by Qualcomm or its transferee, in whole or in part, to adjust a winning bid in any spectrum auction prior to June 8, 2003, subject to terms and conditions set forth in the Commission’s Order. Qualcomm transferred \$10,848,000.00 of the ADV to a winning bidder in FCC Auction No. 35 and the transferee used its portion of the ADV to adjust one of its winning bids in Auction No. 35.¹⁶ The remaining portion of Qualcomm’s ADV could be used to adjust winning bids in another FCC auction, including Auction No. 44.

Ex Parte Rule: Applicants should also be aware that the Commission has generally exempted auction proceedings from the strict requirements of the *ex parte* rule found in Section 1.1208¹⁷ of the Commission’s rules.¹⁸

Mock Auction: All applicants found to be qualified bidders will be eligible to participate in a mock auction on Friday, June 14, 2002. We encourage all qualified bidders to take advantage of this mock auction to become familiar with the FCC Automated Auction System. In the *Qualified Bidders Public Notice*, the Bureau will announce the bidding schedule for the mock auction and give details about participation. The mock auction will be conducted over the Internet. Telephonic bidding will also be

available. As a contingency, the FCC Wide Area Network, which requires access to a 900 number telephone service, will be available as well.

Electronic Bidding: Applicants are reminded that qualified bidders are eligible to bid either electronically or telephonically. Applicants should specify their bidding preference on the FCC Form 175.

Bidders can access the FCC Automated Auction System over the Internet. As a contingency, bidders can also access the FCC Automated Auction System over the FCC's Wide Area Network. Access to the system via the Internet requires, at a minimum, the following hardware and software:

- CPU: Pentium 133 or above
- RAM: 32 MB (64 MB recommended)
- Monitor: VGA or above
- Mouse or other pointing device
- Operating System: Microsoft® Windows™ 95™, 98™, 2000™, ME™, NT™
- Web Browser, either of the following:
 - ◆ Microsoft® Internet Explorer 4.0 or higher (recommended). If you have Internet Explorer 5.0 or higher, your browser must have either Microsoft VM or Java Plug-In Version 1.3.1 installed.
 - ◆ Netscape® Communicator™ 4.0 or higher, with Java Plug-In Version 1.3.1.

Java Plug-In Version 1.3.1 is available for downloading at
<http://java.sun.com/getjava/download.html>.

In addition, users accessing the FCC Automated Auction System via the FCC's Wide Area Network will need:

- Modem: 28.8 Kbps Hayes© compatible modem or faster (56.6 Kbps recommended)
- Point-to-Point Protocol (PPP) Dialer: Use the Dial-Up Networking feature included with the operating system

Access to the FCC Automated Auction System via the Wide Area Network requires access to a 900 service telephone line. The first minute of connection time to the 900 number service is at no charge; however, \$2.30 will be charged for each additional minute.

Long-Form Applications: All applicants should be aware that at the long-form application stage, they will be subject to the more extensive reporting requirements contained in the Commission's Part 1 ownership disclosure rule.¹⁹

Bidder Alerts: All applicants must certify on their FCC Form 175 applications under penalty of perjury that they are legally, technically, financially and otherwise qualified to hold a license, and not in default on any payment for Commission licenses (including down payments) or delinquent on any non-tax debt owed to any Federal agency. Prospective bidders are reminded that submission of a false certification to the Commission is a serious matter that may result in severe penalties, including monetary forfeitures, license revocations, exclusion from participation in future auctions, and/or criminal prosecution.

¹⁹ See 47 C.F.R. § 1.2112(b)(2).

Information about deceptive telemarketing investment schemes is available from the FTC at (202) 326-2222 and from the SEC at (202) 942-7040. Complaints about specific deceptive telemarketing investment schemes should be directed to the FTC, the SEC, or the National Fraud Information Center at (800) 876-7060. Consumers who have concerns about specific proposals may also call the FCC Consumer Center at (888) CALL-FCC ((888) 225-5322).
