THE PUBLIC UTILITY HOLDING COMPANY ACT**

NSD File No: ETC 01-23
Pleading Cycle Established

Comments Due: January 29, 2002

Reply Comments Due: February 5, 2002

On **December 13, 2001**, **NRG ComLease, LLC** (Applicant or NRG), filed an application requesting a determination by the Federal Communications Commission (FCC or Commission) that it is an "exempt telecommunications company" (ETC), pursuant to section 34(a)(1) of the Public Utility Holding Company Act of 1935 (PUHCA),¹ as amended by section 103 of the Telecommunications Act of 1996 (the Act).²

The application indicates that NRG will be exclusively engaged in the business of providing: (a) telecommunications services; (b) information services; (c) other services or products subject to the jurisdiction of the Commission; and/or (d) products or services that are related or incidental to the provision of such products or services within the meaning of section 34(a)(1) of PUHCA. NRG states that it is a wholly-owned subsidiary of NRG Energy, Inc. (NRG Energy). According to Applicant, approximately seventy-four percent (74%) of NRG Energy's stock is indirectly owned by Xcel Energy, Inc., a publicly-traded, registered holding company under PUHCA. NRG explains that NRG Energy develops, acquires and manages a variety of energy-related operations worldwide, and its operations include competitive energy production and cogeneration facilities, power marketing, thermal energy production and transmission, and resource recovery facilities. NRG states that it was formed on October 3, 2000 to negotiate and execute agreements with several leading wireless carriers for the placement of wireless telecommunications facilities, including transmission equipment, on existing NRG Energy facilities, particularly its emissions stacks. In the future, Applicant indicates that it may directly or indirectly engage in other business activities.

In accordance with section 1.5004 of the Commission's rules, if the Commission does not
