## CLARIFICATION INTERNATIONAL BUREAU EXPLAINS PROCEDURE FOR KA-BAND GSO-LIKE SATELLITE APPLICATIONS

Report No. SPB-190

On August 12, 2003, the International Bureau announced procedures for Ka-band licensees to request reassignment to available Ka-band locations.<sup>1</sup> The attachment to the Public Notice contained a list of Ka-band orbital locations available for reassignment. In this Notice we clarify that at the 73° W.L. orbital location, previously assigned to WildBlue, Inc., only 500 MHz of spectrum is available. KaStarCom is licensed to use the remaining 500 MHz at the 73° W.L. orbital location. In addition, the attachment did not include the 114.5° E.L. orbital location recently surrendered by SES Americom. Attached is a revised list of orbital locations available for reassignment to Ka-band licensees pursuant to the August 12, 2003 Public Notice.

---

<sup>1</sup> Public Notice, Report SBP-189, DA 03-2630 (rel. Aug. 12, 2003).

Available Ka-band Orbit Locations

revised

<u>Former Licensee</u>	<u>Location</u>	<u>Former Licensee</u>	<u>Location</u>
Astrolink	21.5° W.L. 175.25° E.L.
