Request for Waiver of Section 11.11(a) of the)	
Commission's Rules)	

ORDER

Adopted: August 15, 2003

Released: August 19, 2003

By the Chief, Spectrum Enforcement Division, Enforcement Bureau:

1. In this *Order*, we grant Clearvision Cable Systems, Inc. ("Clearvision Cable") temporary, waivers of Section 11.11(a) of the Commission's Rules ("Rules") for the six above-captioned cable television systems. Section 11.11(a) requires cable systems serving fewer than 5,000 subscribers from a headend to either provide national level Emergency Alert System ("EAS") messages on all programmed channels or install EAS equipment and provide a video interrupt and audio alert on all programmed channels and EAS audio and video messages on at least one programmed channel by October 1, 2002.¹

2. The Cable Act of 1992 added new Section 624(g) to the Communications Act of 1934 ("Act"), which requires that cable systems be capable of providing EAS alerts to their subscribers.² In 1994, the Commission adopted rules requiring cable systems to participate in EAS.³ In 1997, the

¹ 47 C.F.R. § 11.11(a).

² Cable Television Consumer Protection and Competition Act of 1992, Pub. L. No. 102-385, § 16(b), 106 Stat. 1460, 1490 (1992). Section 624(g) provides that "each cable operator shall comply with such standards as the Commission shall prescribe to ensure that viewers of video programming on cable systems are afforded the same emergency information as is afforded by the emergency broadcasting system pursuant to Commission regulations" 47 U.S.C. § 544(g).

³ *Amendment of Part 73, Subpart G, of the Commission's Rules Regarding the Emergency Broadcast System, Report and Order and Further Notice of Proposed Rule Making*, FO Docket Nos. 91-171/91-301, 10 FCC Rcd 1786 (1994) ("First Report and Order"), reconsideration granted in part, denied in part, 10 FCC Rcd 11494 (1995).

Commission amended the EAS rules to provide financial relief for small cable systems.⁴ The Commission declined to exempt small cable systems from the EAS requirements, concluding that such an exemption would be inconsistent with the statutory mandate of Section 624(g).⁵ However, the Commission extended the deadline for cable systems serving fewer than 10,000 subscribers to begin complying with the EAS rules to October 1, 2002, and provided cable systems serving fewer than 5,000 subscribers the option of either providing national level EAS messages on all programmed channels or installing EAS equipment and providing a video interrupt and audio alert on all programmed channels and EAS audio and video messages on at least one programmed channel.⁶ In addition, the Commission stated that it would grant waivers of the EAS rules to small cable systems on a case-by-case basis upon a showing of financial hardship.⁷ The Commission indicated that waiver requests must contain at least the following information: (1) justification for the waiver, with reference to the particular rule sections for which a waiver is sought; (2) information about the financial status of the requesting entity, such as a balance sheet and income statement for the two previous years (audited, if possible); (3) the number of other entities that serve the requesting entity's coverage area and that have or are expected to install EAS equipment; and (4) the likelihood (such as proximity or frequency) of hazardous risks to the requesting entity's audience.⁸

3. Clearvision Cable filed a request for temporary, 36-month waivers of Section 11.11(a) for the six captioned small, rural cable systems on March 5, 2003. In support of its waiver request, Clearvision Cable states that these cable systems were acquired on January 1, 2003⁹ and, together, serve a total of 268 subscribers. Based on price quotes provided by EAS equipment manufacturers, Clearvision Cable estimates that it would cost a total of approximately \$45,000 to install EAS equipment at these systems. Clearvision Cable asserts that this cost will impose a substantial financial hardship on it and provides its financial statement for the period ending February 28, 2003 in support of this assertion. In addition, Clearvision Cable submits that its subscribers will continue to have ready access to national EAS information from other sources, including its cable systems. In this regard, Clearvision Cable notes that its subscribers currently have access to national EAS messages on at least 62 percent of all programmed channels. Clearvision Cable also submits that its subscribers will have access to EAS information through over-the-air reception of broadcast television and radio stations.

4. Based upon our review of the financial data and other information submitted by Clearvision Cable, we conclude that temporary waivers of Section 11.11(a) for the six captioned systems

⁴ *Amendment of Part 73, Subpart G, of the Commission's Rules Regarding the Emergency Broadcast System, Second Report and Order*, FO Docket Nos. 91-171/91-301, 12 FCC Rcd 15503 (1997) ("*Second Report and Order*").

⁵ *Id.* at 15512-13.

⁶ *Id.* at 15516-15518.

⁷ *Id.* at 15513.

⁸ *Id.* at 15513, n. 59.

⁹ Clearvision Cable acquired the six systems from Galaxy American Communications. Commission staff hasd previously granted Galaxy American temporary, 36-month waivers of the EAS requirements for four of these systems. See *Galaxy American Communications, L.L.C. d/b/a Cable Direct*, 17 FCC Rcd 19366 (Enf. Bur., Tech. & Public Safety Div., 2002).

from March 5, 2003 until October 1, 2005 are warranted.¹⁰ In particular, we find that the estimated \$45,000 cost of EAS equipment for these small cable systems could impose a financial hardship on Clearvision Cable.

5. We note that the Commission recently amended the EAS rules to permit cable systems serving fewer than 5,000 subscribers to install FCC-certified decoder-only units, rather than both encoders and decoders.¹¹ Based on comments from equipment manufacturers, we anticipate that such a decoder-only system could result in significant cost savings to small cable systems.¹²

6. Accordingly, **IT IS ORDERED** that, pursuant to Sections 0.111, 0.204(b) and 0.311 of the Rules,¹³ Clearvision Cable Systems, Inc. **IS GRANTED** waivers of Section 11.11(a) of the Rules from March 5, 2003 until October 1, 2005 for the six captioned cable television systems.

7. **IT IS FURTHER ORDERED** that Clearvision Cable Systems, Inc. place a copy of these waivers in its system files.

8. **IT IS FURTHER ORDERED** that a copy of this *Order* shall be sent by Certified Mail Return Receipt Requested to counsel for Clearvision Cable Systems, Inc., Christopher C. Cinnamon, Esq., Cinnamon Mueller, 307 North Michigan Avenue, Suite 1020, Chicago, Illinois 60601.

FEDERAL COMMUNICATIONS COMMISSION
