NOTICE OF PROPOSED RULEMAKING

Adopted: September 3, 2003

Released: September 8, 2003

Comments Date: October 30, 2003

Reply comments Date: November 14, 2003

By the Assistant Chief, Audio Division:

1. The Audio Division has before it a petition for rule making filed by Amigo Radio, Ltd ("Amigo"), licensee of Station KXXS, Marble Falls, Texas. Amigo requests the substitution of Channel 285A for Channel 285C2 at Marble Falls, Texas, reallocation of Channel 285A to Dripping Springs, Texas, and the modification of the authorization for Station KXXS to reflect the changes.² Amigo stated its intention to file an application for Channel 285A at Dripping Springs, Texas.

2. Amigo filed this proposal for reallocation in accordance with the provisions of Section 1.420(i) of the Commission's Rules, which permits the modification of a station's license to specify a new community of license while not affording other interested parties the opportunity to file competing expressions of interest in the proposed allotment.³ In considering a reallocation proposal, we compare the existing allotment to the proposed allotment to determine whether the reallocation will result in a preferential arrangement of allotments. This determination is based upon the FM Allotment priorities.⁴

3. In support of the petition, Amigo states that Channel 285A can be allotted to Dripping Springs, Texas, in compliance with Section 73.207 of the Commission's Rules. Amigo further states that Dripping Springs is an incorporated community governed by an elected mayor and city council. Dripping Springs has its own public library, post office and the Dripping Springs Independent School District

¹ On August 4, 2003, a CFR correction was published in the *Federal Register* correcting the FM Table of Allotments under Texas listing the community of Marble Falls and Channel 285C2. See 68 FR 45786, August 4, 2003.

² In MM Docket No. 95-49 Maxagrid Broadcasting Corp requested and was granted a channel substitution from 284C3 to 285C3 and a change of community from Llano, Texas, to Marble Falls, Texas, for Station KBAE. See 12 FCC Rcd 6809 (M.M. 1997). Station KBAE was upgraded from Channel 285C3 to Channel 285C2 in MM Docket No. 97-174. See 14 FCC Rcd 6449 (M.M. 1999).

³ See *Modification of FM and TV Authorizations to Specify a new Community of License*, 4 FCC Rcd 4870 (1989), *recon. granted in part*, 5 FCC Rcd 7094 (1990).

⁴ The FM Allotment priorities are (1) First full-time aural service. (2) Second full-time aural service. (3) First local service. (4) Other public interest matters. [Co-equal weight is given to priorities (2) and (3)], See *Revision of FM Assignment Policies and Procedures*, 90 FCC2d 88, 91 (1988).

consists of four schools with an enrollment of 3,090 students. Dripping Springs has a base of businesses, churches, community and civic groups and two weekly newspapers are published in the community. Amigo submits that Dripping Springs, Texas, is a community for allotment purposes. Amigo states that its proposal will provide a first local service for Dripping Springs while Marble Falls will not be deprived of its sole aural transmission service. According to Amigo, Dripping Springs is wholly outside of the Austin Urbanized Area with the proposed reallocation of Channel 285A resulting in 70 dBu service to approximately six percent of the Austin Urbanized Area. Amigo provided a showing that from its new transmitter site, Station KXXS will have a gain area of 460 square kilometers encompassing 113,001 people and a loss area of 6,510 square kilometers encompassing 332,262 people, with the gain and loss areas continuing to receive service from at least five aural stations.

4. We believe that the proposal warrants consideration since the reallocation could provide Dripping Springs with its first local aural transmission service. An engineering analysis shows that Channel 285A can be allotted to Dripping Springs in compliance with the Commission's spacing requirements at coordinates 30-11-54 and 98-00-46. Amigo's proposed site is 7.5 kilometers (4.6 miles) east of the community of Dripping Springs. Marble Falls will continue to receive local service from non-commercial educational Station KBMD, Channel 203A, which provides a 70 dBu signal to the community. Our analysis indicates that the loss area of Channel 285C2 at Marble Falls contains 333,744 people in an area of 6,508 square kilometers while the gain area for Channel 285A at Dripping Springs contains 107,518 people in an area of 459 square kilometers. This will produce a net loss of 226,226 people in an area of 6,049 square kilometers. The 2000 U.S. Census reveals a population of 4,959 people for Marble Falls and 1,548 people for Dripping Springs. The reallocation of Channel 285A to Dripping Springs falls under priority 3), first local service, while retention of Channel 285C2 at Marble Falls is considered under priority 4), other public service. Although the provision of a first local service is a higher priority, Amigo is requested to provide additional information supporting the reallocation since there is a large loss of population served and Station KXXS is moving from the larger community of Marble Falls to the smaller community of Dripping Springs. As requested, we shall propose to modify the license for Station KXXS to specify operation on Channel 285A at Dripping Springs, Texas, as its new community of license. In accordance with the provisions of Section 1.420(i) of the Commission's Rules, we shall not accept competing expressions of interest in the use of Channel 285A at Dripping Springs. Since Dripping Springs is located within 320 kilometers of the U.S.-Mexican border, concurrence of the Mexican Government will be requested for the allotment of Channel 285A at Dripping Springs.

5. Accordingly, we seek comment on the proposed amendment of the FM Table of Allotments, Section 73.202(b) of the Commission's Rules, for the communities listed below, to read as follows:

<u>Community</u>	<u>Present</u>	<u>Channel</u>	<u>Proposed</u>
Dripping Springs, Texas	----		285A
Marble Falls, Texas	285C2		----
