**THE COMMISSION SEEKS COMMENT ON THE CELLULAR  
TELECOMMUNICATIONS AND INTERNET ASSOCIATION'S PETITION FOR  
FORBEARANCE FROM FURTHER INCREASES IN THE NUMBERING  
UTILIZATION THRESHOLD**

**CC Docket No. 99-200**

**Comment Date: March 17, 2003**

**Reply Comment Date: March 24, 2003**

The Wireline Competition Bureau seeks comment on the petition filed by the Cellular Telecommunications and Internet Association (CTIA)<sup>1</sup> seeking forbearance from further increases in the numbering utilization threshold.<sup>2</sup> Section 52.15(h) of the Commission's rules require that "[a]ll applicants for growth numbering resources shall achieve a 60% utilization threshold . . . for the rate center in which they are requesting growth numbering resources." This 60% utilization threshold increased by 5% on June 30, 2002, and increases annually thereafter until the utilization threshold reaches 75%.<sup>3</sup>

CTIA requests that the Commission forbear from further increases to the numbering utilization threshold as required by section 51.15(h).<sup>4</sup> Specifically, CTIA contends that changed circumstances warrant forbearance from further increases in the numbering utilization threshold.<sup>5</sup>

---

<sup>1</sup> See *Petition of the Cellular Telecommunications and Internet Association for Forbearance from Further Increases in the Numbering Utilization Threshold*, CC Docket No. 99-200 (filed June 28, 2002) (CTIA Petition).

<sup>2</sup> See 47 U.S.C. § 160(c); 47 C.F.R. § 1.53.

<sup>3</sup> 47 C.F.R. § 52.15(h). The utilization threshold requires carriers to show that they have used a certain percentage of their existing inventory of numbers before receiving additional resources in a given rate center. See *Numbering Resource Optimization*, First Report and Order and Further Notice of Proposed Rulemaking, 15 FCC Rcd 7574, 7616-17 (2000) (*Numbering Resource Optimization First Report and Order*); *Numbering Resource Optimization*, Second Report and Order, Order on Reconsideration in CC Docket No. 96-98 and CC Docket No. 99-200, and Second Further Notice of Proposed Rulemaking in CC Docket No. 99-200, 16 FCC Rcd 306, 314-15 (2000) (*Numbering Resource Optimization Second Report and Order*).

<sup>4</sup> CTIA Petition at 1. The numbering utilization threshold is currently 65%.

We seek comment on CTIA's petition. Parties should specifically comment on CTIA's assertion that "the factual predicate underlying the Commission's decision to raise annually the numbering utilization threshold . . . has significantly diminished."<sup>6</sup> Parties should also comment on whether further increases to the utilization threshold are "not necessary to ensure that the charges, practices, classifications or regulations by, for, or in connection with [telecommunications carriers that receive numbering resources] are just and reasonable and are not unjustly or unreasonably discriminatory."<sup>7</sup> We also seek comment on whether forbearance from further increases in the utilization threshold is necessary for the protection of consumers and/or is consistent with the public interest.<sup>8</sup> Commenters should also address whether any aspect of CTIA's proposal raises specific concerns in light of the Commission's existing numbering resource optimization rules and policies.

Interested parties may file comments on or before **March 17, 2003** and may file reply comments on or before **March 24, 2003**.
