NOTICE OF PROPOSED RULE MAKING

Adopted: January 15, 2003

Released: January 17, 2003

Comment Date: March 10, 2003

Reply Comment Date: March 25, 2003

By the Assistant Chief, Audio Division:

1. Before the Audio Division for consideration is a multiple docket *Notice of Proposed Rule Making* setting forth two separate proposals to amend the FM Table of Allotments, Section 73.202(b) of the Rules to allot new channels in two localities. Each proposal involves a change of community of license that would provide a first local transmission service at the proposed community. Each petitioner, MainQuad Communications, Inc., licensee of Station WPTM(FM), and Clear Channel Broadcasting Licenses Inc., licensee of Station WYNT(FM), states that it will file an application for construction permit at each locality to effectuate the change of community if the channel is reallocated. We believe that each proposal warrants consideration because it complies with our technical requirements and would serve the public interest.

2. Each of the petitioners filed its proposal for reallocation in accordance with the provisions of Section 1.420(i) of the Commission's Rules, which permits the modification of a station's license to specify a new community of license while not affording other interested parties the opportunity to file competing expressions of interest in the proposed allotment.¹ In considering a reallocation proposal, we compare the existing allotment to the proposed allotment to determine whether the reallocation will result in a preferential arrangement of allotments. This determination is based upon the FM Allotment

3. This is a multiple docket *Notice of Proposed Rule Making* issued in response to a Commission *Public Notice* released October 2, 1998 (DA 98-1987). We are combining separate FM allotment proposals into a single *Notice of Proposed Rule Making*. Each proposal has its own docket and rule making number and the Commission's Reference Center will maintain a separate file for each docket. As discussed in the *Public Notice*, this procedure will conserve Commission resources and expedite the processing of FM allotment petitions for rule making by avoiding duplicative actions. We request comments and/or counterproposals to the following proposals:

A. MB Docket No. 03-6; RM-10595

Petitioner: MainQuad Communications, Inc. (“MainQuad”)
 c/o John M. Pelkey, Esq.
 Garvey, Schuber & Barer
 5th Floor, 1000 Potomac Street, NW
 Washington, DC 20007

Proposal: Reallot Channel 272A from Roanoke Rapids, North Carolina, to Garysburg, North Carolina, as the community’s second local aural transmission service,³ and modify the license for Station WPTM(FM) to reflect the change of community.

<u>Community</u>	<u>Channel</u>	
	<u>Present</u>	<u>Proposed</u>
Roanoke Rapids, North Carolina	272A	---
Garysburg, North Carolina	276A	272A, 276A

Coordinates: 36-29-22 NL and 77-39-08 WL

Additional Information: In support of the reallocation, MainQuad presents evidence of the community status of Garysburg, North Carolina.⁴ It also states that this proposal would serve the public interest because Garysburg will receive its first local aural transmission service and Roanoke Rapids will not be deprived of local aural transmission service, because it will continue to receive local transmission service from one AM and three noncommercial educational FM stations.⁵ We note that this would be the second

² The FM Allotment priorities are (1) First full-time aural service. (2) Second full-time aural service. (3) First local service. (4) Other public interest matters. [Co-equal weight is given to given to priorities (2) and (3)], See *Revision of FM Assignment Policies and Procedures*, 90 FCC2d 88, 91 (1988).

³ Channel 276A was allotted at Garysburg in MM Docket 00-245. See *Alberta, VA, Whitakers, NC, Dinwiddie, VA and Garysburg, NC*, 17 FCC Rcd 8781 (MB 2002) (*recon. pending*).

⁴ Garysburg is an incorporated community with a 2000 U.S. Census population of 1,254 persons. It has an elected mayor and commissioners. It has its own police force, post office and zip code, as well as a school, family resource center, and several churches and businesses.

⁵ Station WCBT(AM)and noncommercial educational FM Stations WZRU, WTRP-FM, and WPGT will continue to serve Roanoke Rapids.

local aural transmission service at Garysburg. We seek comment on these issues. Channel 272A can be reallocated from Roanoke Rapids, to Garysburg, North Carolina at MainQuad’s requested existing transmitter site 9.4 kilometers (5.8 miles) northwest of the community. A preliminary engineering analysis shows that from the proposed transmitter site, there is a loss in service to an area with a population of approximately 6,000 persons, all of whom will continue to receive service from at least 5 or more aural services. No urbanized areas are involved.

B. MB Docket No. 03-7; RM-10596

Petitioner: Clear Channel Broadcasting Licenses, Inc. (“Clear Channel”)
 c/o Marissa G. Repp, Esq.
 F. William LeBeau, Esq.
 Hogan & Hartson, LLP
 555 13th Street, N.W.
 Washington, DC 20004

Proposal: Reallot Channel 240A from Upper Sandusky, Ohio to Caledonia, Ohio, as the community’s first local aural transmission service, and modify the license for Station WYNT(FM) to reflect the change of community.

<u>Community</u>	<u>Channel</u>	
	<u>Present</u>	<u>Proposed</u>
Upper Sandusky, Ohio	240A	---
Caledonia, Ohio	---	240A

Coordinates: 40-35-43 NL and 93-02-59 WL

Additional Information: In support of the reallocation, Clear Channel presents evidence of the community status of Caledonia, Ohio.⁶ It also states that this proposal would serve the public interest because Caledonia would receive its first local aural transmission service and Upper Sandusky would continue to receive local transmission service from noncommercial educational Station WXML(FM). We seek comment on these issues. Channel 240A can be reallocated from Upper Sandusky to Caledonia, Ohio, at Clear Channel’s requested site 8.2 kilometers (5.1 miles) southwest of the community. A preliminary engineering analysis shows that from the proposed transmitter site, there is a loss in service to an area with a population of approximately 26,000 persons, which will continue to receive service from at least 5 or more aural services. No urbanized areas are involved. Canadian concurrence will be requested for this allotment.

However, any new written information elicited from such a request or any summary of any new information shall be served by the person making the presentation upon the other parties to the proceeding in particular docket unless the Commission specifically waives this service requirement.
