Low Power FM New Station Applications Dismissed for Failure to Comply with Third-adjacent Channel Protection Requirements

Applicants Failed to File Corrective Amendments.

By this Public Notice, the Audio Division of the Media Bureau is dismissing the low power FM (LPFM) new station applications listed in the attached appendix. Each application violates the Commission's LPFM third-adjacent channel distance separation requirements with respect to at least one other protected FM authorization or application.

New station applications filed in Window 1 or 2 of the four-stage national LPFM filing window were not required to provide third-adjacent channel protection to FM stations.¹ Subsequently, Congress passed legislation in December 2000 mandating third-adjacent channel protection standards for LPFM facilities, including those specified in then-pending applications. The *Second LPFM R&O* codified these requirements.² The *Second LPFM R&O* identified Window 1 and 2 applications that failed to comply with these revised requirements and announced that the Media Bureau would open a remedial

¹ See *Public Notice, Low Power FM Filing Window, FCC to Accept Low Power FM Applications May 30 through June 5, 2000 for Alaska, California, District of Columbia, Georgia, Indiana, Louisiana, Mariana Islands, Maryland, Oklahoma, Rhode Island, and Utah*, DA 00-914 (rel. April 28, 2000); *Public Notice, Low Power FM Filing Window Deadline Extended, FCC Extends Filing Window Deadline for Low Power FM New Station Construction Permit Applications Through June 8, 2000*, DA 00-1239, (rel. June 5, 2000); *Public Notice, Low Power FM Filing Window, FCC to Accept Low Power FM Applications August 28, 2000 through September 1, 2000 for Connecticut, Illinois, Kansas, Michigan, Minnesota, Mississippi, Nevada, New Hampshire, Puerto Rico, Virginia, and Wyoming*, DA 00-1697 (rel. July 28, 2000).

² See *Creation of a Low Power Radio Service*, 16 FCC Rcd 8026 (2001) ("*Second LPFM R&O*") (implementing the statute included in "Making Appropriations for the Government of the District of Columbia for FY 2001," Pub. L. No. 106-553 114 Stat. 2762 (2000)). See also 47 C.F.R. §73.807.

filing window for corrective major amendments.³ This window opened on October 28, 2002 and closed on November 1, 2002.⁴

The applicants listed in the attached appendix failed to timely file corrective amendments. Accordingly, the Bureau today dismisses each of these applications.⁵ Petitions for reconsideration must be filed in triplicate with the Commission's Office of the Secretary within thirty days of this Public Notice.⁶ Applicants seeking reconsideration based on compliance with remedial filing window procedures should include proof that an amendment was timely filed.⁷

For additional information, please contact either Brian Butler or Michael Mehigan at (202) 418-2700.

- FCC -

Attachment

³ Such applications were identified by the staff and included as Appendices A and B of the *Second LPFM R&O*.

⁴ See *Media Bureau to Open Low Power FM Major Amendment Window from October 28, through November 1, 2002, for Certain Pending New Station Applications Procedures Announced to Permit Certain Applicants to Comply with Third-adjacent Channel Protection Requirements*, DA 02-2178, (rel. September 9, 2002) (*Remedial Window Public Notice*”).

⁵ See 47 C.F.R. 73.3566(a). The actions taken herein are solely reflective of the applications' failure to comply with the third-adjacent channel protection standards of 47 C.F.R. § 73.807. No determination has been made regarding the legal eligibility of a particular applicant. Additionally, all outstanding pleadings associated with a specific application are also dismissed. Such pleadings include petitions to deny, informal objections, and any amendments not previously accepted by the staff that were not filed in order to correct a third-adjacent channel defect.

⁶ Procedures for making proper filings with the Office of the Secretary may be found in the *Remedial Window Public Notice*.

⁷ Applicants eligible to file paper amendments may demonstrate compliance with the November 1, 2002 filing deadline via a copy of a timely-filed amendment that clearly displays the Office of the Secretary date-stamp.
