By the Assistant Chief, Audio Division:

1. The Audio Division has before it a petition for rule making filed by Nassau Broadcasting II, L.L.C. (“Nassau”), licensee of Station WPST, Trenton, New Jersey, proposing the reallocation of Channel 248B from Trenton, New Jersey, to Burlington, New Jersey, and the modification of the authorization for Station WPST to reflect the changes. Nassau stated its intention to file an application for Channel 248B at Burlington, New Jersey.

2. Nassau filed this proposal for reallocation in accordance with the provisions of Section 1.420(i) of the Commission’s Rules, which permits the modification of a station’s license to specify a new community of license while not affording other interested parties the opportunity to file competing expressions of interest in the proposed allotment.<sup>1</sup> In considering a reallocation proposal, we compare the existing allotment to the proposed allotment to determine whether the reallocation will result in a preferential arrangement of allotments. This determination is based upon the FM Allotment priorities.<sup>2</sup>

3. In support of the petition, Nassau states that Channel 248B can be allotted to Burlington, New Jersey, at the current authorized site of Station WPST and as a result, no gain or loss areas will be created and the requisite city grade coverage will be provided to Burlington. The allotment will provide Burlington with its first local service while Trenton would continue to receive service from five FM and two AM stations.<sup>3</sup> Nassau states that Station WPST is currently short-spaced to three stations, WALK, Channel 248B, WIXM, Channel 247B, and WOGL, Channel 251B. These short spacings were created prior to November 16, 1964, and the stations have remained continuously short spaced since then. Accordingly, since the short spacings were not created by Station WPST, the Commission will permit the change of

<sup>2</sup> The FM Allotment priorities are (1) First full-time aural service. (2) Second full-time aural service. (3) First local service. (4) Other public interest matters. [Co-equal weight is given to given to priorities (2) and (3)], See *Revision of FM Assignment Policies and Procedures*, 90 FCC2d 88, 91 (1988).

<sup>3</sup> Stations WNJT-FM, Channel 201A, WWFM, Channel 206A, WTSR, Channel 217A, WTHK, Channel 233B, Station WKXW, Channel 268B, Station WPHY-AM, and WBUD-AM will continue to serve Trenton.

community of license.<sup>4</sup> According to Nassau, the proposal will present a preferential arrangement of allotments.

4. We believe Nassau’s proposal warrants consideration since the reallocation could provide a first local service for Burlington. Retention of Channel 248B at Trenton triggers Priority No. 4, other public interest matters, while reallocation of Channel 248B to Burlington falls under Priority No. 3, first local service. A staff engineering analysis shows that Channel 248B can be allotted to Burlington in compliance with the Commission’s spacing requirements at coordinates 40-14-05 and 74-46-02. Our analysis also indicates that Station WPST, Trenton, currently provides coverage to 100 percent of the Trenton, New Jersey Urbanized Area, 19.3 percent of the Philadelphia, Pennsylvania-New Jersey-Delaware-Maryland Urbanized Area, and 3.2 percent of the New York-Newark, New York-New Jersey-Connecticut Urbanized Area. Since no site change is anticipated for the reallocation of Station WPST from Trenton to Burlington, coverage to the urbanized areas will remain unchanged. Consideration of *Huntington and Tuck* in these circumstances is unwarranted.<sup>5</sup>

5. As an additional matter, Station WPST is a pre-1964 grandfathered station. We recognize that in proposing this action, we are creating a new short-spaced allotment in contravention of Section 73.207 of the Rules. However, we have held that grandfathered FM stations that were in compliance with our Rules when authorized should be afforded the same opportunity to change their community of license as other stations authorized in conformity with our rules, where there is no change in transmitter site.<sup>6</sup> We propose to apply the same approach to the instant case. Nassau will be required to specify its current licensed site for Station WPST, Trenton, New Jersey, for the applications for a construction permit and a license for Station WPST, Burlington, New Jersey, since the change of community of license is protected as a grandfathered short-spaced station. Accordingly, as requested, we shall propose to modify the license for Station WPST to specify operation on Channel 248B at Burlington, New Jersey, as its new community of license. In accordance with the provisions of Section 1.420(i) of the Commission’s Rules, we shall not accept competing expressions of interest in the use of Channel 248B at Burlington.

6. Accordingly, we seek comment on the proposed amendment of the FM Table of Allotments, Section 73.202(b) of the Commission’s Rules, for the communities listed below, to read as follows:

<u>Community</u>	<u>Present</u>	<u>Channel</u>	<u>Proposed</u>
Burlington, New Jersey	-----		248B
Trenton, New Jersey	233B, 248B, 268B		233B, 268B

7. The Commission’s authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached *Appendix* and are incorporated by reference herein. In particular, we note that a showing of continuing interest is required by paragraph 2 of the *Appendix* before a channel will be allotted.
