ADICORP MOTION TO DISMISS WITHOUT PREJUDICE

On November 1, 2004, Alert Devices International Corporation (“ADiCorp”) filed a “Motion to Dismiss Without Prejudice” its Petition for Rulemaking *In the Matter of: Amendment of Parts 2 and 90 of the Commission’s Rules to Provide for an Emergency Vehicle Signaling Service*. The Petition for Rulemaking sought Commission authorization of the Emergency Vehicle Signaling Service (“EVSS”) in the United States. EVSS is a system designed to alert motorists via their AM and FM car radios of an oncoming public safety vehicle engaged in a nearby emergency response situation.

On March 31, 2004, ADiCorp filed a motion to suspend the proceeding in order to allow for time to perform tests of the proposed system due to concerns expressed by the broadcast industry. On April 19, 2004, ADiCorp supplemented its motion and stated that it would submit test results to the Commission regarding EVSS no later than November 1, 2004. On April 22, 2004, the Media Bureau granted ADiCorp’s motion to suspend the proceeding until November 1, 2004.

In its Motion to Dismiss Without Prejudice, ADiCorp states that it has decided that there is a need to redesign the EVSS unit and, together with the need to manufacture and verify operation of the new model, the scheduling of testing has been set back. In addition, ADiCorp states that a delay is further caused by the need to conduct all testing in Canada where it asserts that EVSS has been approved, but where suitable testing facilities are limited. At this time, ADiCorp states that it is unable to specify a date when it can make its test data available. ADiCorp states that it plans to re-file its petition with supporting data when testing of its new design is complete. In the interests of administrative efficiency, ADiCorp requests dismissal of its original petition without prejudice.

In light of the above, ADiCorp’s Motion to Dismiss Without Prejudice **IS GRANTED**.
