**COMMENTS INVITED ON APPLICATION OF XO COMMUNICATIONS, INC.  
TO DISCONTINUE DOMESTIC TELECOMMUNICATIONS SERVICES  
WC Docket No. 04-10  
Comp. Pol. File No. 670**

**Comments Due: January 30, 2004**

### **Section 214 Application**

**Applicants: XO Communications, Inc., XO California, Inc., XO New York, Inc., and XO Virginia, L.L.C.**

On **January 12, 2004**, **XO Communications, Inc.**, located at **1111 Sunset Hills Road, Reston, Virginia, 20190**, filed an application with the Federal Communications Commission (FCC or Commission) on behalf of itself and certain of its subsidiaries including XO California, Inc., XO New York, Inc., and XO Virginia, L.L.C. (collectively XO or Applicants), requesting authority, under section 214(a) of the Communications Act of 1934, as amended, 47 U.S.C. § 214(a), and section 63.71 of the Commission's rules, 47 C.F.R. § 63.71, to discontinue the provision of certain domestic telecommunications services to customers in certain geographic areas.

In its application, XO indicates that it plans to consolidate its DSL network infrastructure by migrating DSL customers served out of certain central offices in California, New York and Virginia, from its DSL network to the network of its partner, Covad Communications (Covad). XO asserts that these customers will continue to receive service from XO, but on a different network. According to XO, no more than 160 customers will be affected by this migration including 142 business customers in California, 13 business customers in New York, and 5 business customers in Virginia. XO indicates that although all of the affected customers may be successfully migrated, it is possible that some of these customers will not wish to be migrated or will fail to respond to XO prior to the date by which customers must either agree to be migrated or be discontinued. XO states that it seeks authority in such cases, to discontinue service to such customers. XO asserts that customers migrated to Covad's network will receive substantially the same service that they receive now, and that these customers will not be harmed by the potential discontinuance because they will also have an opportunity to migrate to other telecommunications carriers that continue to provide DSL in the affected areas. XO states that it plans to discontinue the provision of DSL service over its network in the affected areas on

February 16, 2004, and that it provided notice of the potential discontinuance to affected customers by letters sent via first-class mail on January 8, 2004. XO indicates that service to affected customers will be suspended on that date, but XO asserts that it will maintain the circuits for another 7-10 days to allow customers to contact XO and reinstate their service at no extra charge.

In accordance with section 63.71(c) of the Commission's rules, the application will be deemed to be automatically granted on the thirty-first (31<sup>st</sup>) day after the release date of this notice, unless the Commission has notified Applicants that the grant will not be automatically effective. Accordingly, pursuant to section 63.71(c), absent further Commission action, XO may not terminate service until February 16, 2004. The Commission will normally authorize proposed discontinuances of service unless it is shown that customers or other end users would be unable to receive service or a reasonable substitute from another carrier, or that the public convenience and necessity would be otherwise adversely affected.

This proceeding is considered a "permit but disclose" proceeding for purposes of the Commission's *ex parte* rules, 47 C.F.R. §§ 1.1200-1.1216. Comments objecting to this application must be filed with the Commission on or before **January 30, 2004**. Such comments should refer to **WC Docket No. 04-10 and Comp. Pol. File No. 670**.
