**ORDER TO SHOW CAUSE**

**Adopted: April 6, 2005**

**Released: April 8, 2005**

**Comment Date: May 23, 2005**

By the Assistant Chief, Audio Division, Media Bureau:

1. Before the Audio Division is a Petition for Rule Making filed by Charles Crawford, requesting the allotment of FM Channel 247A at Garwood, Texas, as that community's first local aural broadcast transmission service. To accommodate that allotment, petitioner also requests the reclassification of Station KAJA(FM), Channel 247C, San Antonio, Texas, to specify operation on Channel 247C0. Station KAJA(FM) currently operates on Channel 247C with an ERP of 100 kilowatts at 300 meters HAAT. The station is below the minimum Class C antenna height requirements of 451 meters HAAT. Because Station KAJA(FM) is operating below minimum Class C standards, it is subject to reclassification as a Class C0 facility.<sup>1</sup>

2. Section 316(a) of the Communications Act, as amended, permits the Commission to modify an authorization if such action is in the public interest. Further, pursuant to Section 316(a), we are required to notify the affected station of the proposed action, as well as the public interest reasons for the action, and to afford the licensee at least 30 days to respond. This procedure is set forth in Section 1.87 of the Commission's Rules.<sup>2</sup>

3. The reclassification of a Class C FM station to a Class C0 station may be initiated through the filing of a petition for rule making to amend the FM Table of Allotments.<sup>3</sup> In instances where an initiating petition proposes both to amend the FM Table of Allotments and to reclassify a Class C FM station, the Commission must issue an order to show cause, as set forth in Section 73.3573, note 4, of the Commission's rules. In such circumstances, a notice of proposed rule making will be issued only after the reclassification

<sup>1</sup> See *1998 Biennial Regulatory Review—Streamlining of Radio Technical Rules in Parts 73 and 74 of the Commission's Rules*, 15 FCC Rcd 21,649 (2000) ("*Second Report and Order*"), and Section 1.420(g), n. 2, and Section 73.3573, n. 4, of the Commission's Rules.

<sup>2</sup> See *Modification of FM and Television Licenses Pursuant to Section 316 of the Communications Act* 2 FCC Rcd 3327 (1987).

<sup>3</sup> *Second Report and Order*, *supra*, and 47 C.F.R. § 1.420, n. 2.

issue has been resolved.

4. A petitioner proposing both amendment of the FM Table of Allotments and reclassification of a Class C FM station must certify that no alternative channel is available for the proposed service.<sup>4</sup> Petitioner has provided the requisite certification.

7. A Class C0 reclassification of Station KAJA(FM) at San Antonio, Texas, would accommodate petitioner's request to allot Channel 247A to Garwood, Texas, as that community's first local service. Petitioner's request for reclassification therefore has sufficient public interest benefit to warrant the issuance of an order to show cause. Accordingly, we shall issue this *Order to Show Cause* directed to CCB Texas Licenses, L.P. ("CCB Texas"), licensee of Station KAJA(FM), San Antonio, Texas. CCB Texas is required to show cause why its authorization should not be modified to specify operation on Channel 247C0 in lieu of Channel 247C at San Antonio, Texas.

8. The license for Station KAJA(FM) at San Antonio, Texas, can be modified to Channel 247C0 at its current authorized transmitter site, located at coordinates 29-31-25 NL and 98-43-25 WL. Pursuant to Section 1.87 of the Commission's Rules, CCB Texas may, not later than May 23, 2005, file a written statement showing with particularity why its license should not be modified as proposed in this *Order to Show Cause*. The Commission may call on CCB Texas to furnish additional information. If CCB Texas raises a substantial and material question of fact, a hearing may be required to resolve such a question pursuant to Section 1.87. Upon review of the statements and/or additional information furnished, the Commission may grant the modifications, deny the modifications, or set the matter of modifications for hearing. If no written statement is filed by the date referenced above, CCB Texas will be deemed to have consented to the modification as proposed in this *Order to Show Cause* and a final *Order* will be issued by the Commission, if the channel modification is found to be in the public interest.

9. If CCB Texas chooses to seek authority to modify its license to increase antenna height to at least 451 meters HAAT, it must express its intention to file the necessary application by the comment date specified in this *Order*. It also must file an acceptable application for a construction permit for Station KAJA(FM) with the Commission within 180 days subsequent to the show cause comment due date (May 23, 2005). Upon the filing of an acceptable construction permit application, the proposal to allot Channel 247A at Garwood, Texas, will be dismissed. The present three-year construction period will be applicable if a construction permit is obtained by CCB Texas for Channel 247C as specified herein, under this procedure. If the construction is not completed as authorized, Station KAJA(FM) is subject to automatic reclassification as a Class C0 station, and, in that event, a new petition for rule making to allot Channel 247A at Garwood, Texas, may be refiled.

10. IT IS THEREFORE ORDERED, That CCB Texas Licenses, L.P. show cause why its authorization for station KAJA(FM) should not be modified to specify operation on Channel 247C0 in lieu of Channel 247C at San Antonio, Texas, and

11. IT IS FURTHER ORDERED, That the Commission's Consumer and Governmental Affairs
