**Enforcement Bureau Provides Further Guidance to  
Interconnected Voice Over Internet Protocol Service Providers  
Concerning Enforcement of Subscriber Acknowledgement Requirement**

**WC Docket No. 04-36**

**WC Docket No. 05-196**

In this Public Notice, the Enforcement Bureau (Bureau) provides additional guidance concerning its intended enforcement of the subscriber affirmative acknowledgement requirement placed on interconnected Voice over Internet Protocol (VoIP) service providers in the Commission's *VoIP E911 Order*.<sup>1</sup> After considering the reports submitted to us by interconnected VoIP providers detailing their compliance with the Commission's notification requirements,<sup>2</sup> it is evident that many providers have devoted significant resources to notifying each of their subscribers of the limitations of their 911 service and obtaining acknowledgements from each of their subscribers. Specifically, by repeatedly prompting subscribers through a variety of means, the majority of providers submitting September reports have obtained acknowledgments from nearly all, if not all, of their subscribers. For example, the September reports indicate that at least 21 providers have received acknowledgments from 100 percent of their subscribers and at least 32 others have obtained acknowledgements from 90 percent or more of their subscribers. In recognition of these substantial efforts and the very high percentage of received acknowledgments, the Bureau announces that it will not pursue enforcement action against such providers. We do, however, expect these providers will continue seeking the remaining acknowledgements and will notify the Commission once they have achieved 100% compliance.

To the extent that a provider has not received acknowledgements from at least 90% of its subscribers, we intend to continue forbearing from enforcement of our acknowledgment requirement until October 31, 2005, provided that these providers submit a status report to us by October 25, 2005. This status report should detail the efforts that they have undertaken to obtain acknowledgments from the remainder of their subscriber base, explain why they have been unable to achieve an acknowledgment percentage closer to 100%, and provide the current percentage of acknowledgments that they have received as of the date of filing.
