**COMMENTS INVITED ON APPLICATION OF WISCONSIN BELL, INC. D/B/A
SBC WISCONSIN TO DISCONTINUE DOMESTIC TELECOMMUNICATIONS
SERVICES**

WC Docket No. 05-280
Comp. Pol. File No. 723

Comments Due: October 14, 2005

Section 214 Application

Applicant: Wisconsin Bell, Inc. d/b/a SBC Wisconsin

On August 23, 2005, Wisconsin Bell, Inc. d/b/a SBC Wisconsin (SBC or Applicant), located at 722 North Broadway, Milwaukee, WI 53202, filed an application with the Federal Communications Commission (FCC or Commission) requesting authority, under section 214 of the Communications Act of 1934, as amended, 47 U.S.C. § 214, and section 63.71 of the Commission's rules, 47 C.F.R. § 63.71, to discontinue its provision of a certain domestic telecommunications service in the state of Wisconsin.

SBC indicates that it currently provides intraLATA toll services in the Aurora, Florence, Niagara and Spread Eagle exchanges in the state of Wisconsin. SBC states that the intraLATA toll service it provides in these exchanges has the capability of terminating interstate calls to certain exchanges in Michigan that are also in LATA 342. SBC indicates that it plans to discontinue this service on November 1, 2005. SBC asserts that it provided affected customers with written notification of the planned discontinuance by first class U.S. Mail on August 17, 2005. In addition, SBC states that it notified affected customers by newspaper advertisement in the Florence Mining News and Niagara Journal on August 10, 2005.

SBC asserts that it is a non-dominant carrier with respect to the intraLATA toll service it proposes to discontinue. SBC indicates that it does not have carrier of last resort obligations for intraLATA toll service in these exchanges, and that the Niagara Telephone Company is the incumbent local exchange carrier. SBC states that it is one of many carriers that currently provide intraLATA toll service in the affected exchanges, including MCI, Sprint and Qwest. SBC further states that it has agreed to pay for one intraLATA PIC-change fee for each affected customer, so affected customers will not be charged for changing their intraLATA toll provider and the public convenience and necessity should not be adversely affected. SBC indicates that the Public Service Commission of Wisconsin recently approved SBC's request to discontinue intraLATA toll service in these exchanges.

In accordance with section 63.71(c) of the Commission's rules, SBC's application will be deemed to be automatically granted on the thirty-first (31st) day after the release date of this public notice, unless the Commission notifies SBC that the grant will not be automatically effective. In SBC's application and notice to its customers, SBC indicates that it anticipates discontinuing service on November 1, 2005. Accordingly, pursuant to section 63.71(c) and the terms of SBC's application, absent further Commission action, SBC may not terminate service until **November 1, 2005**. The Commission will normally authorize proposed discontinuances of service unless it is shown that customers or other end users would be unable to receive service or a reasonable substitute from another carrier, or that the public convenience and necessity would be otherwise adversely affected.

This proceeding is considered a "permit but disclose" proceeding for purposes of the Commission's ex parte rules, 47 C.F.R. §§ 1.1200-1.1216. Comments objecting to this application must be filed with the Commission on or before **October 14, 2005**. Such comments should refer to **WC Docket No. 05-280 and Comp. Pol. File No. 723**. Comments should include specific information about the impact of this proposed discontinuance on the commenter, including any inability to acquire reasonable substitute service.
