Dear Ms. Kirby:

This is in response to your September 29, 2005, letter requesting that the period authorized to complete the closing of the *pro forma* transfer of control of Liberman Broadcasting Corporation (Liberman) be extended for an additional 60 days until November 11, 2005. As you note in your letter, the Commission approved the above-referenced transfer of control transaction on May 4, 2004. The International Bureau has granted extensions of the consummation period several times¹ since the initial 60-day period required for consummation under the Commission's rules. (See 47 C.F.R. Section 25.119(f)). You also note that the applications for *pro forma* transfer of control of Liberman were filed as part of an internal corporate restructuring related to an Initial Public Offering (IPO) and that Liberman has determined that market conditions are not conducive to an IPO at this time, but it intends to launch its IPO as soon as conditions are "more favorable."

We note that more than 16 months have passed since the grant of the above-referenced application, and Liberman is unable to state if or when this transaction will be consummated. Given that ample extensions of time have already been granted and the consummation of this transaction is dependent upon unknown future events, we do not believe that a further extension is warranted. We also note that a similar request for extension was denied by the Media Bureau with respect to Liberman's

When Liberman is prepared to go forward with its transaction, you may file a new application at that time.
