By the Assistant Chief, Audio Division, Media Bureau:

1. The Audio Division has before it a petition for rule making in which Lazer Broadcasting Corporation, licensee of Station KLMM(FM), Morro Bay, California ("Petitioner"), proposes the reallocation of Channel 231A from Morro Bay to Oceano, California, as the community's first local transmission service, and the modification of the license for Station KLMM(FM) to reflect the new community. Petitioner pledges to file an application for the channel and to construct the facilities if the application is granted.

2. Petitioner filed this proposal for reallocation in accordance with the provisions of Section 1.420(i) of the Commission's Rules, which permits the modification of a station's license to specify a new community of license while not affording other interested parties the opportunity to file competing expressions of interest in the proposed allotment.<sup>1</sup> In considering a reallocation proposal, we compare the existing allotment to the proposed allotment to determine whether the reallocation will result in a preferential arrangement of allotments. This determination is based upon the FM Allotment priorities.<sup>2</sup>

3. In support of the petition, Petitioner states that its proposal will serve the public interest, it would result in a preferential arrangement of allotments, and meets the requirements for reallocation set forth in *Change of Community R&O*. First, the allotment of Channel 231A at Oceano is mutually exclusive with the current use of Channel 231A at Morro Bay. Second, the community of Morro Bay, 2000 U.S. Census population 10,350 persons, would not be deprived of its sole local service.<sup>3</sup> Third, the proposal would provide a first local aural transmission service at Oceano under Priority (3), which will result in a preferential arrangement of allotments over the retention of a second local transmission service at Morro Bay, which would serve Priority (4). We seek comment on the public interest benefits of the change of community.

<sup>1</sup> See *Amendment of the Commission's Rules Regarding Modification of FM and TV Authorizations to Specify a New Community of License ("Change of Community R&O")*, 4 FCC Rcd 4870 (1989), *recon. granted in part*, 5 FCC Rcd 7094 (1990).

<sup>2</sup> See *Revision of FM Assignment Policies and Procedures*, 90 FCC2d 88, 91 (1988). The FM Allotment priorities are (1) First full-time aural service. (2) Second full-time aural service. (3) First local service. (4) Other public interest matters. [Co-equal weight is given to given to priorities (2) and (3)].

<sup>3</sup> Station KTXV(FM) will remain in Morro Bay.

4. In further support of the reallocation, Petitioner claims that Oceano is a community for allotment purposes, that it is not in any urbanized area, and that its proposed 70dBu will cover less than 50 percent of any urbanized area, and thus no *Tuck*<sup>4</sup> analysis is required.<sup>5</sup> In support of its community status, Petitioner states that Oceano is a Census Designated Place and has its own post office and zip code. It has a 2000 U.S. Census population of 7,260 persons. The community has its own government, the Oceano Community Services District, with an elected Board of Directors, which provides water and sewer service, fire protection, and street lighting services. It has its own airport and schools. There are also parks, churches, community service organizations, and businesses.

5. We believe that the proposal warrants consideration because it would provide Oceano with a first local aural transmission service without depriving Morro Bay of its sole local transmission service. Channel 231A has been proposed to be reallocated at Oceano at a site 12.4 kilometers (7.7 miles) south of the community.<sup>6</sup>

6. Accordingly, we seek comment on the proposed amendment of the FM Table of Allotments, Section 73.202(b) of the Commission's Rules, for the communities listed below, to read as follows:

<u>Community</u>	<u>Present</u>	<u>Channel</u>	<u>Proposed</u>
Morro Bay, California	231A, 259A		259A
Oceano, California	---		231A

7. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached *Appendix* and are incorporated by reference herein. In particular, we note that a showing of continuing interest is required by paragraph 2 of the *Appendix* before a channel will be allotted.

8. Pursuant to Sections 1.415 and 1.419 of the Commission's Rules, interested parties may file comments or counterproposals on or before March 3, 2005, and reply comments on or before March 18, 2005, and are advised to read the *Appendix* for the proper procedures.
