Applications for NCE FM Construction Permits

Group No. 990516

Dear Applicants:

We have before us Group 990516 – two mutually exclusive applications for permits to construct new noncommercial educational (“NCE”) FM stations serving different communities. In such situations, the rules require the Commission to make a threshold determination as to whether grant of any of the applications would further the fair, efficient, and equitable distribution of radio service among communities.¹ For the reasons below, we determine that Bishop Community Radio (“BCR”) is entitled to a decisive Section 307(b) preference.

An NCE FM applicant is eligible to receive a Section 307(b) preference if it would provide a first or second reserved channel NCE aural service (in the aggregate) to at least ten percent of the population, provided that this constitutes at least 2,000 people, within the proposed station’s 60 dBu contour.² If

¹ See 47 U.S.C. § 307(b); 47 C.F.R. § 73.7002(a).

² See 47 C.F.R. § 73.7002(b). With respect to population information, applicants were to use the 2000 Census data, if available by June 4, 2001. See “Supplements and Settlements to Pending Closed Groups of Noncommercial

more than one applicant in a mutually exclusive group qualifies for a preference, we compare first service population coverage totals.³ An applicant will receive a dispositive fair distribution preference by proposing to serve at least 5,000 more potential listeners than the next highest applicant's first service total.⁴ If no applicant is entitled to a first service preference, we will consider combined first and second service population totals and apply the same 5,000 listener threshold.

In the present group, BCR would serve Morganfield, Kentucky, and Heartland Ministries, Inc. ("Heartland") would serve Sturgis, Kentucky. Each applicant claims that it would provide a new first or second NCE service to 10 percent of the population, and to at least 2,000 people, within its respective service area, and therefore, that it is eligible for a fair distribution preference.⁵ We note, however, that Heartland did not provide with its Section 307(b) showing an exhibit indicating the number of people it proposes to serve with new first and second service. Thus, we will not include Heartland in our fair distribution analysis. Based on BCR's submissions and calculations, it appears that it qualifies for a preference. Accordingly, pursuant to Section 73.7004 of the Commission's rules, we identify BCR as the tentative selectee. Group 990516 thus will not proceed to a point hearing.⁶

Accordingly, it is ordered that the application of Bishop Community Radio is accepted for filing. It is also ordered that Bishop Community Radio is TENTATIVELY SELECTED to be awarded a construction permit for a new NCE FM station in Morganfield, Kentucky. Petitions to deny the tentative selectee are due within thirty (30) days following the issuance of a subsequently issued public notice announcing the acceptance and tentative selection of this application.⁷

Educational Broadcast Applications Due by June 4, 2001," *Public Notice*, 16 FCC Rcd 6893 (MB Mar. 22, 2001). Applicants were also to base their "fair distribution" analysis on the "snap shot" date of June 4, 2001, which is applicable unless the applicant subsequently makes engineering changes that would diminish its comparative position. *Id.* In this case, neither of the applicants has made such engineering changes. In addition, each applicant timely supplemented its application with a Section 307(b) showing; each purports to be based on 2000 Census data and a "snap shot" date of June 4, 2001.

³ See 47 C.F.R. § 73.7002(b). See also "Deadline for NCE Settlements and Supplements Extended to July 19, 2001; Date for Calculating Comparative Qualifications Remains June 4, 2001," *Public Notice*, 16 FCC Rcd 10892, 10893 (MB May 24, 2001).

⁴ *Id.*

⁵ BCR's 60 dBu contour encompasses 13,346 people. BCR's claimed aggregated first and second service is 12,758 people. Heartland's 60 dBu contour encompasses 16,892 people. Heartland did not provide its claimed aggregated first and second service totals.

⁶ See 47 C.F.R. § 73.7002(b). The Media Bureau has delegated authority to make 307(b) determinations in NCE cases. See *Reexamination of the Comparative Standards for Noncommercial Educational Applicants*, 15 FCC Rcd 7386 (2000), *partially reversed on other grounds*, *NPR v. FCC*, 254 F.3d 226 (DC Cir. 2001) ("NCE Order"). See also 47 C.F.R. § 0.283. In the *NCE Order*, the Commission concluded that "[i]n examining the fair distribution issues, we will use the general process set forth in the Section of our Competitive Bidding proceeding that addressed Section 307(b) considerations for AM stations." See *NCE Order*, 15 FCC Rcd at 7397 (citing *Comparative Bidding for Commercial Broadcasting and Instructional Television Fixed Services*, 13 FCC Rcd 15920 (1998) (delegating authority to the staff to conduct Section 307(b) analyses with respect to AM applications prior to conducting auctions of competing applications)). In contrast, the *NCE Order* noted that the point system analysis conducted when Section 307(b) is not determinative is considered a simplified "hearing" for purposes of 47 U.S.C. § 155(c)(1). See *NCE Order*, 15 FCC Rcd at 7420.

⁷ See 47 C.F.R. § 73.7004. If any applicant previously raised issues against the tentative selectee, it must refile its objections within this thirty (30) day period.

If, after the petition to deny period has run, there is no substantial and material question concerning the grantability of the tentative selectee's application, we will, by public notice, dismiss the mutually exclusive application of Heartland Ministries, Inc. (File No. BPED-19990505MB) and grant the application of Bishop Community Radio (File No. BNPED-20000229AAN).

Sincerely,

Peter H. Doyle
