Re: Call Sign: E050339
File No.: SES-LIC-20051115-01581

Dear Mr. Jazzo:

On November 15, 2005, Vision Accomplished, Inc. d/b/a Transvision International (Transvision International) filed an application to operate a new temporary-fixed Conventional C-Band¹ earth station that will communicate with ALSAT-designated satellites. Pursuant to Section 25.112(a)(1) of the Commission's rules, 47 C.F.R. §25.112(a)(1), we dismiss the application as defective.

We note that on FCC Form 312 Schedule B, the application indicates that the Maximum EIRP Density per Carrier is 45.40 dBW/4 kHz for emission designator 36M0F9F and the Maximum Transmit Antenna Gain is 45.9 dBi. Using this information, we compute a maximum input power density into the antenna flange of -0.5 dBW/4 kHz. This exceeds the -2.7 dBW/4kHz level eligible for routine processing in 47 C.F.R. §25.212(d)(2). Earth stations operating at non-routine power levels must include the certifications as described in Section 25.220(e)(1) of the Commission's rules, 47 C.F.R. §25.220(e)(1) and must identify the specific satellites for which the earth station intends to communicate. Finally, in items E57 and E59 of Schedule B, you list the East and West elevation angles as 0 degrees. Section 25.205 of the Commission's rules, however, indicates that earth station antenna's shall not be normally be authorized for transmission at angles less than 5 degrees measured from the horizontal plane. Accordingly, we dismiss the application as defective.

¹ 3700-4200 MHz and 5925-6425 MHz.

In light of the above, pursuant to Section 25.112(a)(1) of the Commission's rules, 47 C.F.R. §25.112(a)(1), and Section 0.261 of the Commission's rules on delegations of authority, 47 C.F.R. §0.261, we dismiss the application without prejudice to refile.²

Sincerely,

Scott A. Kotler
Chief, Systems Analysis Branch
Satellite Division
International Bureau

² If Transvision International refiles a modification application identical to the one dismissed, with the exception of supplying the corrected information, it need not pay an application fee for the modification application. *See* 47 C.F.R. §1.1109(d).
