DOMESTIC SECTION 214 APPLICATION FILED FOR TRANSFER OF CONTROL OF GLOBAL CROSSING TELECOMMUNICATIONS, INC., TO WESTCOM CORPORATION

STREAMLINED PLEADING CYCLE ESTABLISHED

WC Docket No. 05-56

Comments Due: March 2, 2005
Reply Comments Due: March 9, 2005

On February 11, 2005, Global Crossing Telecommunications, Inc. (“Global Crossing”) and WestCom Corporation (“WestCom”) (together, “Applicants”), filed an application pursuant to sections 63.03 and 63.04 of the Commission’s rules¹ requesting authority to transfer certain domestic and international lines from Global Crossing to WestCom.²

Applicants assert that this transaction is entitled to presumptive streamlined treatment pursuant to section 63.03(b)(2)(i) of the Commission’s rules³ because immediately following the transaction: (1) Applicants and their affiliates combined will hold less than a ten percent (10%) share of the interstate, interexchange market; (2) to the extent that the Applicants or their affiliates provide U.S. local exchange services or exchange access services, those services are provided only in geographic areas served by a dominant local exchange carrier that is not a party to the proposed transaction; and (3) none of the Applicants or their affiliates is dominant with respect to any U.S. domestic telecommunications service.

¹ 47 C.F.R. §§ 63.03, 63.04; *see* 47 U.S.C. § 214.

² Applicants have also filed for transfer of control related to international section 214 authority held by Global Crossing, to provide voice assets including the international private lines as part of this same transaction. Any action on this domestic section 214 application is without prejudice to Commission action on other related pending applications.

³ 47 C.F.R. § 63.03(b)(2)(i).

Global Crossing provides wholesale and retail voice and data services throughout the United States and from the United States to foreign destinations. The assets that are the subject of this application are provided to major financial institutions at various points throughout the United States and from the United States to foreign destinations. Global Crossing is organized and existing under the laws of the State of Michigan. Global Crossing is an indirect, wholly owned subsidiary of Global Crossing Limited, which in turn, is majority owned by Singapore Technologies Telmedia and Temasek.

WestCom offers point-to-point dedicated bandwidth primarily to the financial industry. WestCom's network supports mission critical and latency sensitive applications such as trader voice services and inter-firm trading applications for many of the world's largest financial institutions. WestCom offers these services on a non-common carrier basis over facilities that it owns, controls, or constructs, or on a resale basis over facilities owned by others. WestCom is organized and existing under the laws of the State of New York. WestCom is a wholly owned subsidiary of WestCom Acquisition Corp., a Delaware corporation, which, in turn, is a wholly owned subsidiary of WestCom Holding Corp., a Delaware corporation ("WestCom Holding"). One Equity Partners LLC, a Delaware entity, is the majority shareholder of WestCom Holding (63%).⁴ Banc of America Corp., a U.S. Corporation, holds a 17% direct interest in WestCom Holding and Michael Hirtenstein, a U.S. citizen, holds the remaining 20% direct interest in WestCom Holding.

Global Crossing proposes to sell to WestCom certain of its assets used in the provision of Global Crossing's current trader voice service business. The assets to be transferred for which Applicants seek Commission approval are those intrastate domestic and international private line circuits used by Global Crossing in its trader voice service business. Applicants anticipate closing on this proposed transaction no later than March 15, 2005.

The Applicants assert that the proposed transaction serves the public interest. Global Crossing states it has searched out a highly qualified company that wishes to acquire its trader voice service business and to offer its trader voice service customers the private line services that they require. Moreover, the Applicants state that WestCom is a leading telecommunications provider to the financial community, and is qualified to provide this suite of highly sophisticated, specialized services and therefore provide significant, tangible benefits to Global Crossing's existing trader voice service customers.

⁴ One Equity Partners LLC is wholly owned and controlled by OEP Holding Corporation, a Delaware corporation. OEP Holding Corporation is wholly owned and controlled by Banc One Investment Corporation, a Delaware corporation. Banc One Investment Corporation is wholly owned and controlled by JP Morgan Capital Corporation, a Delaware corporation. JP Morgan Capital Corporation is wholly owned and controlled by Banc One Financial LLC, a Delaware corporation. Banc One Financial LLC is wholly owned and controlled by JP Morgan Chase & Co, a Delaware corporation.
