## **COMMISSION SEEKS COMMENT ON APPLICATIONS FOR CONSENT TO TRANSFER OF CONTROL FILED BY VERIZON COMMUNICATIONS INC. AND MCI, INC.**

**WC Docket No. 05-75**

### **PLEADING CYCLE ESTABLISHED**

**Comments/Petitions Due: May 9, 2005**

**Responses/Oppositions to Petitions Due: May 24, 2005**

Verizon Communications Inc. (“Verizon”) and MCI, Inc. (“MCI”) (collectively, “the Applicants”) have filed a series of applications pursuant to sections 214 and 310(d) of the Communications Act of 1934, as amended<sup>1</sup> and section 2 of the Cable Landing License Act.<sup>2</sup> The Applicants seek Commission approval of the transfer of control to Verizon of licenses and authorizations held directly and indirectly by MCI. This transfer of control will result from a proposed acquisition whereby MCI will become a wholly-owned subsidiary of Verizon.<sup>3</sup>

MCI is a global provider of communications services. The company offers long-distance service, high-capacity connections, and a variety of other voice and data services through MCI, Inc. as well as its various subsidiaries.<sup>4</sup> MCI owns, operates, monitors and maintains extensive communications networks, with facilities in countries and cities throughout North America, Latin America, Europe, Africa, and the Asia-Pacific region. Verizon is a holding company that owns operating subsidiaries that provide a range

<sup>2</sup> *See generally* An Act Relating to the Landing and Operation of Submarine Cables in the United States, 47 U.S.C. §§ 34-39 (“Cable Landing License Act”).

<sup>3</sup> These transfer of control applications pertain to domestic and international section 214 authorizations; cable landing licenses; Part 22 paging and radiotelephone licenses, general aviation air-ground radio service licenses, and 931-MHz paging licenses; Part 24 PCS narrowband licenses; Part 25 satellite earth station licenses; Part 90 private land mobile radio service licenses; and Part 101 Common Carrier Fixed Point-to-Point Microwave licenses.

of communications services in the United States and select foreign countries. The company's operating subsidiaries offer local telephone service in 29 states, as well as broadband, nationwide long distance and other services. Verizon also has investments in international wireline and wireless operators, primarily in the Americas and Europe, as well as being the majority owner of Verizon Wireless, which serves wireless voice and data subscribers across the United States.

These transfer of control applications were filed in connection with a proposed acquisition whereby Verizon will acquire MCI. At closing, a wholly-owned subsidiary of Verizon will be merged with and into MCI. MCI will be the surviving corporation, thereby becoming a wholly-owned subsidiary of Verizon. MCI shareholders will receive 0.4062 shares of Verizon common stock and \$1.50 for each MCI share owned. In addition, MCI shareholders will receive a special dividend payment of \$4.50 per share at that time. MCI will continue to own the stock of its subsidiaries, and MCI and its subsidiaries will continue to hold all of the FCC authorizations that they hold prior to the merger. Verizon will become the new parent of MCI, resulting in the indirect assignment of licenses or transfer of direct control of the FCC authorizations.<sup>5</sup>
