The purpose of these meetings is to discuss the needs of the 700 MHz and 4.9 GHz spectrum users, including public safety, public health, emergency management and utility services.

September 12, 2006 Connecticut Department of Transportation, 280 West Street,  
Rocky Hill, Connecticut  
December 12, 2006 New Hampshire Department of Safety, 10 Hazen Drive,

All eligible public safety providers whose sole or principal purpose is to protect the safety of life, health, or property in Region 19 would utilize these frequencies. It is essential that not only public safety, but all government, Native American Tribal, and non-governmental organizations eligible under Section 90.523 of the Commission's Rules be represented in order to ensure that each agency's future spectrum needs are considered in the allocation process.

Interested parties wishing to participate in the planning process for utilization of the new public safety spectrum in the 700 MHz and 4.9 GHz band are encouraged to attend.
