MEDIA BUREAU ACTION

REQUEST FOR WAIVER OF 47 C.F.R. § 76.1204(a)(1) FILED WITH THE COMMISSION

CSR-7042-Z/CS Docket No. 97-80

Comment Date: September 18, 2006

Reply Comment Date: September 28, 2006

The regulated, wholly-owned subsidiaries of Verizon Communications Inc. (collectively, “Verizon” or “Petitioner”) have filed a request pursuant to Section 629(c) of the Communications Act of 1934, as amended (the “Communications Act”),¹ for temporary waiver of the prohibition set forth in Section 76.1204(a)(1) of the Commission’s rules on offering navigation devices that perform both conditional access and other functions.² Specifically, Verizon requests that the Commission waive the prohibition with respect to Verizon until an interoperable, open downloadable conditional access (“DCAS”) solution is developed and deployed.³ Verizon contends that waiver of the rule is necessary to facilitate the introduction of its FiOS TV multichannel video programming distribution service, which will increase competition in the market for the delivery of video programming.⁴ Verizon also asserts that granting a waiver would not jeopardize the overall goal of Section 629 of the Communications Act⁵ because Verizon’s existing customer base is small, grant of a waiver will not impact the effort of consumer electronics manufacturers to develop and deploy navigation devices specifically compatible with Verizon’s network, and Verizon’s customers will still be able to utilize CableCARD-compatible devices on Verizon’s network.⁶ According to Verizon, waiver of the prohibition also would promote broadband deployment.⁷ We seek comment on Verizon’s request.
