LPTV AND TV TRANSLATOR DIGITAL COMPANION CHANNEL APPLICATIONS MUTUALLY EXCLUSIVE PROPOSALS

Announcement of 60-Day Settlement Period Ending December 15, 2006

Report No. AUC-06-85-C (Auction No. 85)

On April 20, 2006, the Media Bureau and Wireless Telecommunications Bureau (Bureaus) announced a filing window for certain low power television (LPTV) and television translator stations to submit proposals for digital companion channels.¹ By this Public Notice, the Bureaus provide Attachment A as a list of all proposals received that are mutually exclusive with other proposals submitted in the filing window. Since the proposals listed in Attachment A are mutually exclusive, they are subject to the Commission's competitive bidding procedures.²

60-Day Settlement Period Ending December 15, 2006: By this Public Notice, the Bureaus announce a 60-day period beginning with the release of this Public Notice and ending December 15, 2006, for parties with proposals in the mutually exclusive (MX) groups listed in Attachment A to enter into settlement agreements or otherwise resolve their mutual exclusivities by means of engineering solutions.³ The parties must submit the agreements and affidavits required by Section 73.3525 and/or any engineering submission by the deadline on December 15, 2006. After approval of a settlement and/or engineering submission, the proposed permittee(s) must submit an accurate and complete FCC Form 346 by the deadline subsequently specified by staff.

Applicants must ensure that their settlement agreements comply with the provisions of Section 311(c) of the Communications Act of 1934, as amended,⁴ and the pertinent requirements of Section of 73.3525 of the Commission's Rules, including the reimbursement restrictions.⁵ For example:

¹ See "LPTV and TV Translator Digital Companion Channel Applications Filing Window for Auction No. 85," *Public Notice*, DA 06-874 (rel. April 20, 2006).

² See 47 C.F.R. § 309(j); 47 C.F.R. § 73.5000(a); *see generally*, Implementation of Section 309(j) of the Communications Act – Competitive Bidding for Commercial Broadcast and Instructional Television Fixed Service Licenses, *First Report and Order*, MM Docket No. 97-234, 13 FCC Rcd 15920 (1998) (*Broadcast Competitive Bidding First Report and Order*); *aff'd*, *Orion Communications Ltd. v. FCC*, 221 F.3d 196, No. 98-1424, slip op. (D.C. Cir. June 13, 2000) (unpublished opinion available at 2000 WL 816046 (D.C. Cir.); *aff'd*, *Orion Communications Ltd. v. FCC*, 213 F.3d 761 (D.C. Cir. 2000).

³ See *Broadcast Competitive Bidding First Report and Order*, 13 FCC Rcd at 15927, 15980-81.

⁴ 47 U.S.C. § 311(c).

1. Parties must submit a copy of their settlement agreement and any ancillary agreement(s).
2. Parties must submit a joint request for approval of such agreement.
3. Parties must submit an affidavit of each party to the agreement setting forth:
 - (a) The reasons why it is considered that such agreement is in the public interest;
 - (b) A statement that its application was not filed for the purpose of reaching or carrying out such agreement;
 - (c) A certification that neither the applicant nor its principals has received any money or other consideration in excess of the legitimate and prudent expenses of the applicant;
 - (d) The exact nature and amount of any consideration paid or promised;
 - (e) An itemized accounting of the expenses for which it seeks reimbursement; and
 - (f) The terms of any oral agreement relating to the dismissal or withdrawal of its application.

Applicants that unilaterally dismiss their application or file an engineering amendment that removes the mutual exclusivity to their application without having entered a settlement agreement with another applicant must nevertheless submit an affidavit as to whether or not consideration has been promised to or received by such applicant in connection with their dismissal or engineering amendment.

Anti-Collusion Rule. The prohibition of collusion set forth in 47 C.F.R. § 1.2105(c) became effective upon the short-form (FCC Form 175) filing deadline on June 30, 2006.⁶ However, the Commission's Rules provide for a limited opportunity to settle, or otherwise resolve mutual exclusivities by means of engineering solutions, following the filing of the FCC Form 175 applications.⁷ Specifically, parties in MX groups listed in Attachment A may discuss possible settlement agreements or technical solutions with other parties in their group during the limited period which commences with the release of this public notice and ends on December 15, 2006. Once the settlement period ends, the anti-collusion restrictions once again take effect. The Commission will proceed to auction with any competing mutually exclusive proposals that are not resolved by the parties during this settlement period.

When and Where to File. Settlement agreements that are entered into in connection with this settlement period must be filed **prior to 6:00 pm Eastern Time (ET) on December 15, 2006**, as an attachment to the respective parties' FCC Form 175s via the FCC Auction System. Similarly, applicants proposing engineering amendments in connection with this settlement period must do so by amending the technical portion of their FCC Form 175s via the FCC Auction System. Engineering amendments also must be submitted **prior to 6:00 p.m. on December 15, 2006. Late-filed settlement agreements and engineering amendments will not be accepted.** Settlement agreements and engineering amendments may be filed any time beginning 9:00 a.m. ET on October 17, 2006, until 6:00 p.m. ET on December 15, 2006.

⁵ 47 C.F.R. § 73.3525.

⁶ See 47 C.F.R. § 73.5002(d); see also 47 C.F.R. § 1.2105(c).

⁷ See *Broadcast Competitive Bidding First Report and Order*, 13 FCC Rcd at 15927, 15980-81.

Applicants are strongly encouraged to file their settlement agreements and engineering amendments early and are responsible for allowing adequate time for filing. Information about accessing, viewing, completing amendments to, and filing settlement agreements for the FCC Form 175 is included in Attachment B of this Public Notice. Technical support is available at (877) 480-3201, option nine; (202) 414-1250; or (202) 414-1255 (text telephony (TTY)); hours of service are Monday through Friday, from 8:00 a.m. to 6:00 p.m. ET. In order to provide better service to the public, all calls to the hotline are recorded.

The staff will withhold further action on the mutually exclusive proposals listed in Attachment A pending submission of settlement agreements or engineering proposals to resolve mutual exclusivity. Following the close of the settlement period, the Bureaus subsequently will announce an auction date and propose auction procedures for selecting among the remaining MX proposals.

For additional information, contact Shaun Maher (legal) or Hossein Hashemzadeh (technical) of the Video Services Division of the Mass Media Bureau at (202) 418-1600.

This Public Notice contains the following Attachments:

Attachment A: Low Power Mutually Exclusive Proposals Subject to Auction

Attachment B: Submission of Settlement Agreements and Minor Modifications Including Amendments to Engineering Proposals

ATTACHMENT B

SUBMISSION OF SETTLEMENT AGREEMENTS AND MINOR MODIFICATIONS INCLUDING AMENDMENTS TO ENGINEERING PROPOSALS

The settlement window is now open for submitting the agreements and affidavits required by Section 73.3525 and/or minor changes including any engineering proposal amendments. Applicants must submit these documents as attachments to their FCC Form 175 applications along with any minor changes, electronically, via the Internet. **FCC Form 175 applications must be submitted and confirmed prior to 6:00 p.m. ET on December 15, 2006.** Late applications or unconfirmed submissions of electronic data will not be accepted.

Applicants may make multiple changes to their Form 175 applications until the close of the Settlement window. However, applicants must press the **SUBMIT** button in the FCC Auction System for the changes to be submitted and considered by the Commission.

Applicants are reminded that all information required in connection with applications to participate in spectrum auctions is necessary to determine the applicants' qualifications, and as such will be available for public inspection. Accordingly, applicants should not include any unnecessary sensitive information, such as Taxpayer Identification Numbers or Social Security Numbers, in Form 175s. Applicants may request that information submitted not be made routinely available for public inspection following the procedures set forth in 47 C.F.R. § 0.459. Pursuant to Section 0.459(a), such requests must be included as an attachment to Form 175 and identify the information to which the request applies. Because the required information bears on applicants' qualifications, confidentiality requests will not be routinely granted.

A. What Information Can Be Modified

While the Settlement window is open, applicants may submit attachments regarding settlement and/or technical modifications, and make minor modifications to their submitted FCC Form 175 application and its associated mutually exclusive engineering proposals.

On the Form 175, applicants may modify only the following fields: Applicant Address, Contact Information (Name, Address, Phone Number, and so on), Responsible Party Address, and Bidding Preference (electronic or telephonic).

In addition, applicants may make minor amendments to engineering proposals in order to resolve mutual exclusivity. However, applicants *may not* modify the following fields: Proposal Description, Service Type, Application Purpose, Facility ID, and Channel.

To modify an application and/or its engineering proposal requires first accessing the application electronically via the Internet (see Accessing Your Application, below). Modifications to an application are made on the electronic version of it. Modifications made to an engineering proposal also require the applicant to submit a Settlement attachment or Technical Modification attachment describing the modifications

B. Accessing Your Application

To access your FCC Form 175 application electronically via the Internet, start your web browser and point it to either <http://auctions.fcc.gov/> (primary location) or <http://auctions2.fcc.gov/> (secondary location). Once on the FCC *Integrated Spectrum Auction System* page, proceed as follows:

1. Log in using the FCC Registration Number (FRN) and Password you used to file the Form 175 application. If you forgot the FRN Password, you can contact the FRN Help Line at (877) 480-3201, option 1 (Mon-Fri 8:00 a.m. – 7:00 p.m. ET).
2. When the *My Auctions* page appears, click the **Enter Auction Application Manager** link in the Pre-Auction area at the top left corner of the page.
3. On the *Auction Application Manager* page, click the link for Auction **85**. This produces the *Summary* page for Auction 85.

From the *Summary* page, you can do three things:

- View or edit your applicant information, by clicking the Applicant Information **View/Edit** button.
- View or edit your engineering proposals, by clicking the Engineering Proposals **View/Edit** button.
- Upload an attachment describing the modifications you made to an engineering proposal, by clicking the **Attachments** icon at the top.

The following sections describe these tasks.

1. Viewing or Editing Applicant Information

Clicking the Applicant Information **View/Edit** button produces the *Detail for Applicant Information* page. As mentioned earlier, you can only change the following fields: Applicant Address, Contact Information (Name, Address, Phone Number, and so on), Responsible Party Address, and Bidding Preference. The system disables all other fields, and displays them as being grayed out. To edit an accessible section of the application, click its associated Edit icon.

When you finish editing or viewing the application, click the **Summary** icon at the top, to return to the *Summary* page or click the **Continue** button at the bottom, to reach the *View/Edit Proposals* page.

2. Viewing or Editing Engineering Proposals

Clicking the Engineering Proposals **View/Edit** button produces the *View/Edit Proposals* page, which lists the engineering proposals you have submitted for this auction. You can view any of the proposals, but you can only edit proposals determined to be mutually exclusive.

To view or edit a proposal, click its Proposal description link to obtain its *Detail for Engineering Proposal* page. As mentioned earlier, you may only modify mutually exclusive proposals. However, you *may not* modify the following fields: Proposal Description, Service Type, Application Purpose, Facility ID, and Channel. If you modify an engineering proposal, you *must* also submit an attachment describing your modifications, as described in the next section.

When you finish editing or viewing an engineering proposal, click the **Attachments** icon at the top, to upload your attachment; click the **Summary** icon at the top, to return to the *Summary* page; or click the **View/Edit All Proposals** button at the bottom, to return to the *View/Edit Proposals* page.

3. Uploading an Attachment Describing Settlement and Technical Modifications

Clicking the **Attachments** icon at the top of the page produces the *Attachments* page, where you can upload an attachment, created by you and saved on your computer, describing any modification you made to an engineering proposal and/or settlement agreements.

a. Contents of Settlement Agreements

Applicants must ensure that their settlement agreements comply with the provisions of Section 311(c) of the Communications Act of 1934, as amended, and the pertinent requirements of Section of 73.3525 of the Commission's Rules, including the reimbursement restrictions. For example:

1. Parties must submit a copy of their settlement agreement and any ancillary agreements.
2. Parties must submit a joint request for approval of such agreement.
3. Parties must submit an affidavit of each party to the agreement setting forth:
 - (a) The reasons why it is considered that such agreement is in the public interest;
 - (b) A statement that their application was not filed for the purpose of reaching or carrying out such agreement;
 - (c) A certification that neither the applicant nor their principals has received any money or other consideration in excess of the legitimate and prudent expenses of the applicant;
 - (d) The exact nature and amount of any consideration paid or promised;
 - (e) An itemized accounting of the expenses for which they seek reimbursement; and
 - (f) The terms of any oral agreement relating to the dismissal or withdrawal of their application.

Applicants who unilaterally dismiss their application or file an engineering amendment that removes the mutual exclusivity to their application without having entered a settlement agreement with another applicant must nevertheless submit an affidavit as to whether or not consideration has been promised to or received by such applicant in connection with their dismissal or engineering amendment.

b. File Formats for Attachments

When creating an attachment for uploading, applicants may use a variety of file formats – including (but not limited to) Word 2000 or earlier, WordPerfect 5.x or later, Adobe PDF, and ASCII text – and must verify that the files contain all exhibit information. Files may be no larger than 10 Mb. Graphics files (e.g., .bmp, .tiff, .jpg) and spreadsheets (e.g., Excel, Lotus) are supported but not recommended. Files must not be password-protected.

c. Uploading an Attachment

To upload an attachment, do the following:

1. Click **Other** in the Type pull-down menu.
2. In the File field, browse for the location of your attachment.
3. Type an attachment description in the Description field. You *must* include the File Number of the proposal in this field, so the system can associate your attachment to the correct proposal.
4. Click the **Add Attachment** button to perform the upload operation.

If the attachment has been uploaded successfully, the upload date appears at the bottom of the screen. The page does not refresh automatically; therefore you must click the browser's **Refresh** button occasionally.

If you have additional attachments to upload, you can upload it on this page directly. Otherwise, click the **Return to Application** button to return to the *Summary* page.

Note: Attachments should be added prior to submitting your application. If you attempt to add an attachment after you've already submitted your application the system will display a warning message that your changes are not effective until you go back to the *Summary* page and go through the certify and submit process again.

4. Submitting Your Modified Application

To submit your modified application, including any attachments, to the FCC, begin by clicking the **Check Errors** button on the *Summary* page. If the automated check encounters any errors that must be corrected before submitting the application, the errors will be listed in an Error or Warning box at the top of the screen. To correct one of these errors, click its corresponding **EDIT** button. If the application is error-free, start the submittal procedure by clicking **Continue to Certify**.

After the application has been submitted, a confirmation page will be displayed that states the submission time and date, along with your unique file number. It is recommended that you print a copy of the confirmation page for your records. You may then view and print a copy of your submitted application by clicking on **Print Preview**.

C. Technical Support

For technical assistance with using FCC software, contact the FCC Technical Support Hotline at (877) 480-3201, option nine; (202) 414-1250; or (202) 414-1255 (TTY). The FCC Technical Support Hotline is available Monday through Friday from 8 a.m. to 6 p.m. ET. **All calls to the FCC Technical Support Hotline are recorded.**

FCC Technical Support can also be contacted electronically by filling out a help request form at <https://esupport.fcc.gov/request.htm>.
