Re: File No. SES-LIC-20061006-01813
Call Sign: E960138

Dear Mr. Fitch:

On October 6, 2006, Illinois Bible Institute, Inc. (Illinois Bible Institute) filed the above-captioned application to operate a transmit/receive fixed earth station to operate in the conventional Ku-Band.¹

Specifically, Illinois Bible Institute did not submit the required Radiation Hazard Study in response to Question 28 of the 312 Main Form. This study must accompany all applications for new transmitting facilities. Also, the application does not include a response to either question E38 or E40 of Schedule B, regarding the Total Power at the antenna flange or Total EIRP for all carriers, respectively. Without this information, the application is incomplete.

Accordingly, pursuant to Section 25.112(a)(1) of the Commission's rules, 47 C.F.R. §25.112(a)(1), and Section 0.261 of the Commission's rules on delegations of authority, 47 C.F.R. §0.261, we dismiss this application without prejudice to refile.

Sincerely,

Scott A. Kotler
Chief, Systems Analysis Branch
Satellite Division
International Bureau

¹ 11.7-12.2 and 14.0-14.5 GHz bands.
