- Schedule Next Meeting

Both of the Region 55 Public Safety Planning Committee meetings are open to the public. All eligible public safety providers in Region 55 whose sole or principal purpose is to protect the safety of life, health, or property may utilize these frequencies. It is essential that public safety agencies in all areas of government, including state, municipality, county and Native American Tribal, and non-governmental organizations eligible under Section 90.523 of the Commission’s Rules, be represented in order to ensure that each agency’s future spectrum needs are considered in the 700 MHz allocation process. Administrators who are not oriented in the communications field should delegate someone with this knowledge to attend, participate and represent their agency’s needs.

All interested parties wishing to participate in the planning for the use of new public safety spectrum in the 700 MHz and 800 MHz bands within Region 55 are encouraged to attend. For further information, please contact:
