Re: Call Sign: E060423
File No.: SES-LIC-20061201-02066

Dear Ms. Willis:

On December 1, 2006, Videolink, Inc. on behalf of Ed Schultz Broadcasting, LLC filed the above-captioned application for a fixed earth station to be operated in the Conventional Ku-band.¹ Pursuant to Section 25.112(a)(1) of the Commission's rules, 47 C.F.R. §25.112(a)(1), we dismiss the application as defective without prejudice to refileing.

The application lists the maximum EIRP density per carrier for emission 24M0G7F as +23.37 dBW/4 KHz. This is less than, and therefore inconsistent with, the average value of +28.32 dBW/4 kHz that we calculated using the 66.1 dBW EIRP listed in the application and the bandwidth of the emission. Given this inconsistency, we cannot determine the proposed emission power.

Accordingly, pursuant to Section 25.112(a)(1) of the Commission's rules, 47 C.F.R. §25.112(a)(1), and Section 0.261 of the Commission's rules on delegations of authority, 47 C.F.R. §0.261, we dismiss this application without prejudice to refileing.²

Sincerely,

Scott A. Kotler
Chief, Systems Analysis Branch
Satellite Division
International Bureau

¹ 14.0-14.5 GHz band.

² If Ed Schultz Broadcasting, LLC refiles a license application identical to the one dismissed, with the exception of supplying the corrected or missing information, it need not pay an application fee. *See* 47 C.F.R. §1.1109(d).
