ORDER ON RECONSIDERATION

Adopted: March 13, 2007

Released: March 13, 2007

By the Deputy Chief, Public Safety and Homeland Security Bureau:

1. In this Order, we dismiss as moot a petition for reconsideration of a bureau-level order in the above-captioned proceeding. That order addressed a number of petitions for waiver of Section 20.18(c) of the Commission's rules, which requires that commercial mobile radio service (CMRS) providers be capable of transmitting 911 calls made using text telephone (TTY) devices by June 30, 2002. The order granted an 18-month extension of the compliance deadline to carriers migrating away from TDMA networks, including Petitioners. Petitioners seek reconsideration of the order's determination that if their TDMA networks were still operating at the end of that 18-month period, they must either implement TTY capability in their TDMA networks or turn them off.

2. The record in this proceeding indicates that Petitioners no longer operate TDMA networks. Their petition for reconsideration is therefore moot.
