DOMESTIC TELECOMMUNICATIONS SERVICES**

WC Docket No. 07-67
Comp. Pol. File No. 785

Comments Due: April 23, 2007

Section 214 Application

Applicants: AT&T Communications of California, Inc., AT&T Communications of Ohio, Inc. and AT&T Communications of the Southwest, Inc.

On March 20, 2007, AT&T Communications of California, Inc., AT&T Communications of Ohio, Inc. and AT&T Communications of the Southwest, Inc. (collectively AT&T or Applicants), located at P.O. Box 598016, Orlando, FL 32859, filed an application with the Federal Communications Commission (FCC or Commission) requesting authority, under section 214 of the Communications Act of 1934, as amended, 47 U.S.C. § 214, and section 63.71 of the Commission's rules, 47 C.F.R. § 63.71, to discontinue the provision of certain domestic telecommunications services to customers in Arkansas, California, Kansas, Missouri, Ohio and Oklahoma.

AT&T indicates that it currently provides interstate residential local exchange service to customers in Arkansas, California, Kansas, Missouri, Ohio, and Oklahoma. AT&T specifies that this service is basic telephone exchange service that allows customers to make local calls within a local exchange, which includes local calling areas that cross state boundary lines. AT&T explains that, as a result of the acquisition of AT&T Corp. and its subsidiaries by SBC Communications Inc., AT&T now plans to discontinue the interstate residential local exchange services that it currently provides throughout the AT&T service areas in Arkansas, Kansas, Missouri, Ohio and Oklahoma, and in California, in the geographic area served by AT&T's incumbent local exchange carrier affiliate, AT&T California. However, AT&T states that its incumbent local exchange carrier affiliates, AT&T California, AT&T Ohio, and AT&T Southwest, will provide alternative interstate residential local exchange services. AT&T specifies that following the discontinuance of existing services, the combined entity hopes to migrate all affected residential local exchange customers to one local service platform in each state. AT&T indicates that it plans to cease offering this service as a new service in the affected states on or after May 21, 2007. AT&T states that it also plans to migrate existing customers on or after May 7, 2007 in California; on or after May 28, 2007 in Ohio; and on or after June 11, 2007 in Arkansas, Kansas, Missouri, and Oklahoma,

subject to Commission authorization. AT&T maintains that there are many alternative providers of local exchange telephone service in the affected areas, including but not limited to Comcast in Arkansas and California; Sage Telecom, Inc. in Arkansas, Kansas, Missouri, Ohio and Oklahoma; Time Warner Telecom in Missouri; and the AT&T incumbent local exchange carrier (ILEC) affiliates, AT&T California, AT&T Ohio and AT&T Southwest. According to AT&T, customers also should not experience any loss in service as a result of the discontinuance because AT&T plans to migrate customers automatically to the appropriate AT&T ILEC affiliate unless customers elect to receive service from another provider. AT&T represents that it notified affected customers of the proposed discontinuance by letters sent via U.S. Mail on March 14, 2007. Finally, AT&T asserts that it is non-dominant with respect to the services it proposes to discontinue.

In accordance with section 63.71(c) of the Commission's rules, AT&T's application will be deemed to be granted automatically on the thirty-first (31st) day after the release date of this public notice, unless the Commission notifies AT&T that the grant will not be automatically effective. In AT&T's application and notice to customers AT&T indicates that it will no longer offer this service as a new service in the affected states on or after May 21st, and that it anticipates migrating existing customers on or after May 7th in California, May 28th in Ohio, and June 11th in Arkansas, Kansas, Missouri, and Oklahoma. Accordingly, pursuant to section 63.71(c) and the terms of AT&T's notice and application, absent further Commission action, AT&T may cease to offer service to customers in accordance with its filed representations, and may terminate service to affected customers on or after **May 7, 2007** in California, **May 28, 2007** in Ohio, and **June 11, 2007** in Arkansas, Kansas, Missouri, and Oklahoma. The Commission will normally authorize proposed discontinuances of service unless it is shown that customers or other end users would be unable to receive service or a reasonable substitute from another carrier, or that the public convenience and necessity would be otherwise adversely affected.

This proceeding is considered a "permit but disclose" proceeding for purposes of the Commission's ex parte rules, 47 C.F.R. §§ 1.1200-1.1216. Comments objecting to this application must be filed with the Commission on or before **April 23, 2007**. Such comments should refer to **WC Docket No. 07-67 and Comp. Pol. File No. 785**.
