Re: Applications for Transfer of Control
Stations KUVB-TV, Green Valley, AZ *et al.*
File No. BTCCT-20060718AGO *et al.*

Dear Mr. Rosenstein:

On September 25, 2007, you filed on behalf of your client Providence Equity Partners Inc. ("PEP"), a request for an extension of time until October 31, 2007, to come into compliance with the divestiture condition set forth in paragraph 13 of *Shareholders of Univision Communications, Inc.*, 22 FCC Rcd 5842, 5848 (2007) ("*2007 Univision Order*"). In the *2007 Univision Order*, the Commission granted the applications transferring control of Univision to Broadcasting Media Partners, Inc. ("BMPI"), conditioned upon BMPI "com[ing] into compliance with the [newspaper/broadcast cross-ownership] rule within 6 months of consummation of the proposed transaction by either PEP divesting its interest in Freedom [Communications Holdings, Inc.], or the post-merger Univision divesting those broadcast station licenses implicating [the] rule."¹ On June 25, 2007, PEP notified the Commission that it intended to come into compliance with this condition by divesting its interest in Freedom. The 6-month waiver period granted in the *2007 Univision Order* runs on September 29, 2007.

PEP states that grant of a brief extension is in the public interest because PEP and Freedom have reached an agreement in principle whereby Freedom will redeem PEP's minority interest. The parties, according to PEP, are preparing "definitive documentation of their agreement," and are "undertaking the financial arrangements necessary to effectuate the redemption of [PEP's] interest." PEP notes that Freedom is a closely-held company, and, as such, does not have a public market for its shares.

¹ *2007 Univision Order*, 22 FCC Rcd at 5848.

We agree that the brief extension requested would serve the public interest. PEP will have until close of business on October 31, 2007 to divest its interest in Freedom. Absent extraordinary circumstances, we do not anticipate granting further extensions.

Sincerely,

Barbara Kreisman
