WIRELESS TELECOMMUNICATIONS BUREAU GRANTS UPPER AND LOWER PAGING BAND LICENSES

Auction Event No. 48

Report No. AUC-48 (Auction 48)

On May 28, 2003, the Federal Communications Commission completed the auction of 10,202 licenses in the Lower and Upper Paging Bands.¹ On September 30, 2003, the Bureau announced that, based on a preliminary review, it had accepted for filing the long-form application (FCC Form 601) for Colorado CallComm, Inc. (“Colorado CallComm”).² On January 9, 2004, the Bureau announced that it was prepared to grant the Colorado CallComm application upon full and timely payment.³ Colorado CallComm defaulted on its final payment obligation for its winning bid for the FE-block license in BEA141, but it did meet its final payment obligation for the FM-block license in BEA141.⁴ Upon further review, we find that, in regard to the FM-block license, the application filed by Colorado CallComm, listed in Attachment A to this Public Notice, is complete and conforms to the Commission’s rules. Furthermore, the Commission has received full payment, as required by Section 1.2109(a) of its rules,⁵ for the FM-block license in BEA141 listed in Attachment A.⁶

Accordingly, by this Public Notice, we announce the grant of the FM-block license listed in Attachment A. We grant this license pursuant to Section 309(a) of the Communications Act, 47 U.S.C. § 309(a), and section 0.331 of the Commission’s rules, 47 C.F.R. § 0.331, because it will serve the public interest, convenience, and necessity.
