

Federal Communications Commission
Washington, D.C. 20554

DA 08-1526

June 27, 2008

Mr. Robert J. Lungo
Vislink
101 Billerica Ave
Bldg. 6
North Billerica, MA 01862

Re: Call Sign E080129
File No.: SES-LIC-20080528-00681

Dear Mr. Lungo:

On May 28, 2008, Vislink filed the above-captioned application to operate a transmit-only temporary-fixed earth station in the conventional Ku-Band.¹ Pursuant to Section 25.112(a)(1) of the Commission's rules, 47 C.F.R. § 25.112(a)(1), we dismiss without prejudice to refiling the portion of the application that seeks to use the 102KG7W emission.²

Section 25.112 of the Commission's rules, 47 C.F.R. § 25.112, requires the Commission to return, as unacceptable for filing, any earth station application that is not substantially complete, that contains internal inconsistencies, or that does not substantially comply with the Commission's rules. A portion of Vislink's application is technically inconsistent, which renders that portion unacceptable and subject to dismissal. The deficiency is as follows:

In response to item E49 of Schedule B, Vislink lists a maximum equivalent isotropic radiated power (EIRP) density per carrier for emission designator 102KG7W of the transmit frequency as 18.50 dBW/4kHz. This value is less than, and therefore inconsistent with, the average value of 21.52 dBW/4kHz that we calculate using the EIRP value of 35.58 dBW Vislink provides in response to item E48 and the bandwidth of 102 kilohertz of the corresponding emission Vislink provides in response to item E47 of Schedule B. Given this inconsistency, we cannot determine the proposed emission power for this emission designator. Thus, the portion of Vislink's application pertaining to the 102KG7W emission is defective.

¹ 14.0-14.5 GHz band.

² If Vislink refiles an application identical to the one dismissed, with the exception of supplying the corrected information, it need not pay an application fee. *See* 47 C.F.R. § 1.1109(d).

Accordingly, pursuant to Section 25.112(a)(1) of the Commission's rules, 47 C.F.R. § 25.112(a)(2), and Section 0.261 of the Commission's rules on delegations of authority, 47 C.F.R. § 0.261, we dismiss that portion of the application pertaining to emission 102KG7W.

Sincerely,

Scott A. Kotler
Chief, Systems Analysis Branch
Satellite Division
