NOTICE OF PROPOSED RULE MAKING

Adopted: July 30, 2008

Released: August 1, 2008

Comment Date: September 22, 2008

Reply Date: October 7, 2008

By the Assistant Chief, Audio Division, Media Bureau:

1. The Audio Division has before it a Petition for Rule Making filed by Prescott Valley Broadcasting Company, Inc. (“Petitioner”), proposing to substitute Channel 247B for vacant Channel 239B at Blythe, California. The purpose of the requested channel substitution at Blythe is to enable FM Station KPKR, which presently operates on Channel 247C3 at Parker, Arizona, as a §73.215 short-spaced station, to operate as a fully-spaced Class C3 station on Channel 239C3. The proposed channel substitution is filed as part of a hybrid rulemaking and application proposal.¹

2. We believe that the proposal to substitute Channel 247B for Channel 239B at Blythe, California, warrants consideration. The proposed channel substitution will accommodate Petitioner’s pending application to operate as a fully-spaced Class C3 channel at Parker, Arizona, without any deleterious effect upon the service that can be made available using the Class B allotment at Blythe. A staff engineering analysis indicates that Channel 247B can be allotted at Blythe, California, consistent with the minimum distance separation requirements of the Commission’s rules, at coordinates 33-37-02 NL and 114-35-20 WL, with a site restriction of 1 km (.61 miles) northeast of the community. Concurrence by the Government of Mexico is required for the allotment of Channel 247B at Blythe, California, because the proposed allotment is located within 320 kilometers (199 miles) of the U.S.-Mexican border. Accordingly, we seek comment on amendment of the FM Table of Allotments, 47 C.F.R. Section 73.202(b), to substitute Channel 247B for vacant Channel 239B at Blythe, California:

¹ Petitioner filed a FCC Form 301 minor change application for FM Station KPKR (File No. BPH-20080418AAU), and was required to submit a filing fee pursuant to *Revision of Procedures Governing Amendments to FM Table of Allotments and Changes of Community of License in the Radio Broadcast Services*, Report and Order, 21 FCC Rcd 14212 (2006) (“Revised Allotment Procedures R&O”).

Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed allotment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. (b) Petitions for rule making which conflict with the proposals in this *Notice* will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead the Commission to allot a different channel than was requested for any of the communities involved.

4. Comments and Reply Comments; service. Pursuant to applicable procedures set out in 47 C.F.R. Sections 1.415 and 1.420, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this *Appendix* is attached.
