Re: Call Sign: E880532

Dear Mr. Stevens:

On August 11, 2008, Video Crafters LLC filed by paper an application to assign an earth station license for the above-captioned call sign. For reasons discussed below, we dismiss the application as defective, without prejudice to refileing.

Section 25.112 of the Commission's rules, 47 C.F.R. § 25.112, requires the Commission to return, as unacceptable for filing, any earth station application that is not substantially complete, that contains internal inconsistencies, or that does not substantially comply with the Commission's rules. Video Crafters, LLC's application does not comply with the Commission's rules, which renders it unacceptable and subject to dismissal. The deficiency is as follows:

Pursuant to Section 25.119(c) of the Commission's rules, 47 C.F.R. § 25.119(c), assignments of license must be filed electronically through the International Bureau Filing system using Form 312, including Schedule A. Video Crafters, LLC did not submit its application electronically. In addition, we note that Video Crafters, LLC did not submit the correct fee. Pursuant to Section 1.1107 of the Commission's rules, 47 C.F.R. § 1.1107, the correct fee is \$475.00 rather than \$170.00 as submitted. Finally, we also note that the license¹ for which Video Crafters, LLC seeks to assign expired on April 28, 2008. Therefore, the license cannot be assigned.

Consequently, we dismiss Video Crafters LLC's application. Any applications that Video Crafters LLC seeks to file in the future with the International Bureau must be filed through the International Bureau Filing System (IBFS) website at www.fcc.gov/ibfs. If you need any technical assistance with IBFS, please contact the IBFS help desk at 202-418-2222.

Sincerely,

Scott A. Kotler
Chief, Systems Analysis Branch
Satellite Division
International Bureau
