PUBLIC SAFETY AND HOMELAND SECURITY BUREAU INVITES COMMENTS ON REGION 39 (TENNESSEE) 700 MHZ REGIONAL PLAN AMENDMENT

PS Docket No. 06-229 and WT Docket No. 02-378

Comments Due: April 2, 2008

Reply Comments Due: April 14, 2008

On July 31, 2007, the Federal Communications Commission (Commission) adopted a *Second Report and Order* revising the rules governing wireless licenses in the 700 MHz band.¹ The Commission adopted a plan for the 700 MHz band to establish a nationwide, interoperable public safety broadband communications network for the benefit of state and local public safety users. The Commission designated the lower half of the 700 MHz public safety band for broadband communications (763-768/793-798 MHz) and consolidated existing narrowband allocations in the upper half of the public safety 700 MHz band (769-775/799-805 MHz).

In revising the band plan for the public safety 700 MHz band, the Commission noted that consolidating the narrowband channels in the upper part of the band will impact approved and pending 700 MHz regional planning committee (RPC) plans (*i.e.* require that the plans be amended).² The Commission required RPCs with approved plans or plans on file to submit amended plans consistent with the decisions adopted in the *Second Report and Order* by November 23, 2007.³ On November 9, 2007, the Public Safety and Homeland Security Bureau (Bureau) extended the deadline for RPCs to submit
