## PUBLIC SAFETY AND HOMELAND SECURITY BUREAU INVITES COMMENTS ON REGION 5 (SOUTHERN CALIFORNIA) 700 MHZ REGIONAL PLAN AMENDMENT

PS Docket No. 06-229 and WT Docket No. 02-378

**Comments Due: April 2, 2008**

**Reply Comments Due: April 14, 2008**

On July 31, 2007, the Federal Communications Commission (Commission) adopted a *Second Report and Order* revising the rules governing wireless licenses in the 700 MHz band.<sup>1</sup> The Commission adopted a plan for the 700 MHz band to establish a nationwide, interoperable public safety broadband communications network for the benefit of state and local public safety users. The Commission designated the lower half of the 700 MHz public safety band for broadband communications (763-768/793-798 MHz) and consolidated existing narrowband allocations in the upper half of the public safety 700 MHz band (769-775/799-805 MHz).

In revising the band plan for the public safety 700 MHz band, the Commission noted that consolidating the narrowband channels in the upper part of the band will impact approved and pending 700 MHz regional planning committee (RPC) plans (*i.e.*, require that the plans be amended).<sup>2</sup> The Commission required RPCs with approved plans or plans on file to submit amended plans consistent with the decisions adopted in the *Second Report and Order* by November 23, 2007.<sup>3</sup> On November 9, 2007, the Public Safety and Homeland Security Bureau (Bureau) extended the deadline for RPCs to submit

amended plans, consistent with the decisions adopted in the *Second Report and Order*, to January 31, 2008, and provided additional guidance for the development of plan amendments.<sup>4</sup>

On January 31, 2008, the Region 5 (Southern California)<sup>5</sup> 700 MHz Regional Planning Committee submitted a proposed amendment to its 700 MHz Public Safety Plan.<sup>6</sup> The plan amendment includes the following:

- Revises Plan Attachment A - Frequency Allocation List, to reflect the new consolidated narrowband allocations.
- Advises that the State of California, Department of General Services (DGS), Telecommunications Division, has formally withdrawn its allocation of 120 General Use narrowband 6.25 kHz channels, as reflected in the April 2004 Region 5 approved plan.<sup>7</sup> The revised Plan Attachment A – highlights the former State of California channels now available for re-allocation; subsequent plan amendments will reflect any such assignments.

The proposed plan amendment was reviewed by, and letters of concurrence obtained from, all three regions adjacent to Region 5: Region 3 (Arizona); Region 6 (Northern California); and Region 27 (Nevada).<sup>8</sup>
