TELECOMMUNICATIONS SERVICES**

WC Docket No. 08-41
Comp. Pol. File No. 859

Comments Due: April 7, 2008

Section 214 Application

Applicant: Comcast Phone of Illinois, LLC d/b/a Comcast Digital Phone

On **March 6, 2008**, **Comcast Phone of Illinois, LLC d/b/a Comcast Digital Phone** (Comcast or Applicant), located at **One Comcast Center, 50th Floor, Philadelphia, PA 19103**, filed an application with the Federal Communications Commission (FCC or Commission) requesting authority, under section 214 of the Communications Act of 1934, as amended, 47 U.S.C. § 214, and section 63.71 of the Commission's rules, 47 C.F.R. § 63.71, to discontinue the provision of certain domestic telecommunications services in Illinois. By an amendment filed March 19, 2008, Comcast corrected its initial application and updated the record regarding notice to customers. Accordingly, Comcast's application is deemed complete as of March 19, 2008.

Comcast indicates that it currently provides interstate and intrastate telecommunications services throughout Illinois. Comcast states, however, that it now intends to discontinue its provision of certain telecommunications services, marketed to the public under the brand name "Comcast Digital Phone," in Illinois. According to Comcast, the anticipated date for the proposed discontinuance is April 21, 2008, or as soon thereafter as the necessary state and federal approvals can be obtained. Comcast explains that the proposed April 21, 2008 disconnection will be a "soft disconnect" and that customers in the affected location will continue to be able to call emergency services by dialing 911, and to call the Comcast Phone call center until May 21, 2008, or one month after the authorized disconnection date. Comcast also states that it will assist affected customers during their transition to alternative service providers, and that it will continue to provide other telecommunications services in Illinois. Comcast indicates that it informed 15,000 affected customers of the proposed discontinuance by letters sent via first class U.S. Mail on March 5, 2008 and the remaining 2,000 affected customers were informed by letters sent on March 16, 2008. Finally, Comcast asserts that it is non-dominant in the local exchange, interstate, and interexchange services markets.

In accordance with section 63.71(c) of the Commission's rules, Comcast's application will be deemed to be granted automatically on the 31st day after the release date of this public notice, unless the Commission notifies Comcast that the grant will not be automatically effective. In Comcast's application and notice to its customers, Comcast indicates that it anticipates discontinuing service on or after April 21, 2008. Accordingly, pursuant to section 63.71(c) and the terms of Comcast's application and notice,

absent further Commission action, Comcast may terminate its Comcast Digital Phone service in Illinois on or after **April 21, 2008**. The Commission normally will authorize proposed discontinuances of service unless it is shown that customers or other end users would be unable to receive service or a reasonable substitute from another carrier, or that the public convenience and necessity would be otherwise adversely affected.

This proceeding is considered a “permit but disclose” proceeding for purposes of the Commission’s ex parte rules, 47 C.F.R. §§ 1.1200-1.1216. Comments objecting to this application must be filed with the Commission on or before **April 7, 2008**. Such comments should refer to **WC Docket No. 08-41 and Comp. Pol. File No. 859**.
