## MEDIA BUREAU ACTION

### MEDIA BUREAU SEEKS COMMENT ON THOMSON'S LOW-COST, LIMITED CAPABILITY SET-TOP BOX CERTIFICATION

CSR-8178-Z

**Comment Date: June 29, 2009**

On June 1, 2009, the Commission released an order granting a request by Evolution Broadband, LLC ("Evolution") for a waiver of Section 76.1204(a)(1) of the Commission's rules,<sup>1</sup> which prohibits cable operators from placing into service navigation devices that perform both conditional access and other functions.<sup>2</sup> The Commission concluded that the Evolution Broadband DMS-1002 and DMS-1002-CA set-top boxes were eligible for waiver of the integration ban pursuant to the "low-cost, limited-capability" standard set forth in the Commission's *2005 Deferral Order*.<sup>3</sup> In the *Evolution Order*, the Commission set forth a streamlined process for other applicants to seek waivers for similarly low-cost, limited-capability devices:

If applicants certify that the capabilities of their navigation devices are low-cost, limited capability devices that are no more advanced than the [Evolution Broadband DMS-1002 and DMS-1002-CA set-top boxes] and include the full specifications of any devices for which waiver is sought, the Media Bureau will release a public notice seeking comment on those certifications for a period of ten calendar days, after which the Bureau will expeditiously grant a waiver similar to the one granted herein, deny such a waiver, or take other appropriate action.<sup>4</sup>

Thomson, Inc. has filed a request for waiver pursuant to this streamlined process, certifying that its DCI104 and DCI105 Digital-To-Analog Cable TV Converters are low-cost, limited-capability devices

As a result of the permit-but-disclose status of this proceeding, *ex parte* presentations will be governed by the procedures set forth in Section 1.1206 of the Commission’s rules applicable to non-restricted proceedings.<sup>7</sup>
