By the Assistant Chief, Audio Division, Media Bureau:

1. The Audio Division has before it a Petition for Rule Making filed by Cochise Broadcasting LLC (“Petitioner”), licensee of FM Station KZXX, Doney Park, Arizona, proposing to substitute Channel 293C2 for vacant Channel 255C2 at Leupp, Arizona. Petitioner submitted its petition for rule making as part of a hybrid application and rule making proposal. The purpose of the requested channel substitution at Leupp is to allow Station KZXX to go from being a short-spaced station authorized pursuant to Section 73.215 of the Commission’s rules and using a directional antenna to a fully-spaced station using an omnidirectional antenna. Petition has proposed to accomplish this change by moving Station KZXX from Channel 250A to Channel 255A at Doney Park, its current community of license.<sup>1</sup>

2. We believe that the proposal to substitute Channel 293C2 for Channel 255C2 at Leupp, Arizona, warrants consideration. The proposed channel substitution will allow petitioner to eliminate KZXX’s current short-spacing by substituting Channel 255A for Channel 250A at Doney Park, without any deleterious effect upon the service that can be made available using the Class C2 allotment at Leupp. A staff engineering analysis indicates that Channel 293C2 can be allotted at Leupp, Arizona, consistent with the minimum distance separation requirements of the Commission’s rules, at the existing coordinates for Channel 255C2 (city reference coordinates 35-17-02 NL and 110-57-52 WL), without site restriction. Accordingly, we seek comment on amendment of the FM Table of Allotments, 47 C.F.R. Section 73.202(b), to substitute Channel 293C2 for vacant Channel 255C2 at Leupp, Arizona:

2. Showings Required. Comments are invited on the proposal(s) discussed in the *Notice of Proposed Rule Making* to which this *Appendix* is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed allotment is also expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is allotted and, if authorized, to build a station promptly. Failure to file may lead to denial of the request.

3. Cut-off protection. The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments (*see* 47 C.F.R. Section 1.420(d).)

(b) Petitions for rule making which conflict with the proposals in this *Notice* will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If they are filed later than that, they will not be considered in connection with the decision in this docket.

(c) The filing of a counterproposal may lead the Commission to allot a different channel than was requested for any of the communities involved.

4. Comments and Reply Comments; service. Pursuant to applicable procedures set out in 47 C.F.R. Sections 1.415 and 1.420, interested parties may file comments and reply comments on or before the dates set forth in the *Notice of Proposed Rule Making* to which this *Appendix* is attached. All submissions by parties to this proceeding or by persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. The person filing the comments shall serve comments on the petitioner. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. A certificate of service shall accompany such comments and reply comments (*see* 47 C.F.R. Section 1.420(a), (b) and (c).) Comments should be filed with the Secretary, Federal Communications Commission, Washington, D.C. 20554.
